A global leader in digital health

At ResMed, we pioneer innovative solutions that treat and keep people out of the hospital, empowering them to live healthier, higher-quality lives. Our digital health technologies and cloud-connected medical devices transform care for people with sleep apnea, COPD, and other chronic diseases. Our comprehensive out-of-hospital software platforms support the professionals and caregivers who help people stay healthy in the home or care setting of their choice. By enabling better care, we improve quality of life, reduce the impact of chronic disease, and lower costs for consumers and healthcare systems in more than 140 countries.

COVID-19 response

Produced 3.5x more ventilator and bilevel devices; increased ventilation mask production more than 10x

(Jan - Jun 2020 vs. Jan - Jun 2019)

Sleep apnea

An estimated **936 million people** suffer from sleep apnea or sleep suffocation – the upper airway closes off causing the body to jolt "awake" to take breaths throughout the night.[1]

ResMed provides: CPAP therapy that's smaller, quieter, more comfortable, more connected.

- **4% fewer inpatient and emergency dept. visits** for every nightly hour slept on CPAP[2]
- **62% lower all-cause mortality rate** when treating sleep apnea with CPAP[3]
- **87% patient adherence** when remotely and self monitored[4]

COPD/Lung disease

An estimated **380 million people** suffer from chronic obstructive pulmonary disease,[9] the world's third leading killer.[10]

ResMed provides: The world's most complete solution suite throughout a patient's journey.

- Cloud-connected invasive, non-invasive, and bilevel ventilation devices
- Non-invasive ventilation (NIV) reduces one-year risk of death by 76%[11]
- Propeller Health digital sensor and app connect to most COPD/asthma inhalers. For asthma, it helps increase symptom-free days 48%[12] and reduce emergency visits 53%[13]

SaaS

More people want to **age in place** or other low-cost **out-of-hospital** settings.

brightree by ResMed · MatrixCare by ResMed · HEALTHCARE first by ResMed

ResMed provides: The software that helps thousands of agencies provide that care.

- Home medical equipment (HME) providers
- Home health
- Hospice
- Skilled nursing facilities
- Life plan communities
- Senior living
- Private duty
