Resmed

A global leader in digital health

At Resmed, we pioneer innovative solutions that treat and keep people out of the hospital, empowering them to live healthier, higher-quality lives. Our digital health technologies and cloud-connected medical devices transform care for people with sleep apnea, COPD, and other chronic diseases. Our comprehensive out-of-hospital software platforms support the professionals and caregivers who help people stay healthy in the home or care setting of their choice. By enabling better care, we improve quality of life, reduce the impact of chronic disease, and lower costs for consumers and healthcare systems in more than 140 countries.

The Healthcare Technology Report

Mick Farrell named **#1 HealthTechnology CEO of 2022**

America's Most Responsible Companies 2023 Newsweek statista

Named one of America's top 500 "Most Responsible Companies" in (2021, 2022, 2023, 2024)

The Wall Street Journal Best-Managed Companies 2022

Named one of the "Management Top 250" companies in (2020, 2021, 2022, 2023, 2024); top 25 among healthcare companies

Sleep Health

~936 million people live with sleep apnea – the upper airway closes off causing the body to jolt "awake" to take breaths throughout the night.[1]

~860 million people live with insomnia.[2]

> **Resmed provides: CPAP therapy that's smaller, quieter, more comfortable, and more connected – and in Germany, a reimbursed Digital Health Application (DiGA) for insomnia.**

39% lower all-cause mortality rate when treating sleep apnea with CPAP[3]

87% patient adherence on CPAP therapy when remotely and self monitored[4]

77% with obesity[5]

76% with heart failure[6]

72% with type 2 diabetes[7]

...also have sleep apnea.

85-90% of COPD cases are caused by cigarette smoking[8]

COPD/Lung disease

An estimated **480 million people** live with chronic obstructive pulmonary disease[9], the world's third leading killer.[10]

> **Resmed provides: The world's most complete digital solution suite throughout a patient's journey.**

76% reduced risk of one-year death for COPD patients using non-invasive ventilation (NIV)[11]

Residential Care Software (RCS)

More people want to age in place and receive affordable, high-quality care outside the hospital.

Resmed provides: Comprehensive cloud-based clinical, financial, and operational solutions that support healthcare providers across a range of care settings outside of the hospital.
