SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2009

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-15317

ResMed Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

98-0152841

(I.R.S. Employer Identification No.)

14040 Danielson St

Poway, CA 92064-6857

United States

(Address of principal executive offices)

(858) 746 2400

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At April 27, 2009, there were 75,359,877 shares of Common Stock (\$0.04 par value) outstanding. This number excludes 6,353,307 shares held by the registrant as treasury shares.

RESMED INC. AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

(1) Organization and Basis of Presentation

ResMed Inc. (referred to herein as “we”, “us”, “our” or the “Company”) is a Delaware corporation formed in March 1994 as a holding company for the ResMed Group. Through our subsidiaries, we design, manufacture and market equipment for the diagnosis and treatment of sleep-disordered breathing and other respiratory disorders, including obstructive sleep apnea. Our manufacturing operations are located in Australia, Singapore, France and the United States. Major distribution and sales sites are located in the United States, Germany, France, the United Kingdom, Switzerland, Australia, Norway and Sweden.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and nine months ended March 31, 2009 are not necessarily indicative of the results that may be expected for the year ending June 30, 2009.

The condensed consolidated financial statements for the three and nine months ended March 31, 2009 and 2008 are unaudited and should be read in conjunction with the condensed consolidated financial statements and notes thereto included in our Form 10-K for the year ended June 30, 2008.

(2) Summary of Significant Accounting Policies

(a) Basis of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from management’s estimates.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(b) Revenue Recognition

Revenue on product sales is generally recorded upon shipment, at which time title and risk of loss transfers to the customer. Revenue on product sales which require customer acceptance is not recorded until acceptance is received. Royalty revenue from license agreements is recorded when earned. Service revenue received in advance from service contracts is initially deferred and recognized ratably over the life of the service contract. Revenue received in advance from rental unit contracts is initially deferred and recognized ratably over the life of the rental contract. Revenue from sale of marketing or distribution rights is initially deferred and recognized ratably as revenue over the life of the contract. Freight charges billed to customers are included in revenue. All freight related expenses are charged to cost of sales. Taxes assessed by government authorities that are imposed on and concurrent with revenue-producing transactions, such as sales and value added taxes, are reported on a net basis (excluded from revenue).

We do not recognize revenues to the extent that we offer a right of return or other recourse with respect to the sale of our products, other than returns for product defects or other warranty claims, nor do we recognize revenues if we offer variable sale prices for subsequent events or activities. However, as part of our sales processes we may provide upfront discounts for large orders, one time special pricing to support new product introductions, sales rebates for centralized purchasing entities or price-breaks for regular order volumes. The costs of all such programs are recorded as an adjustment to revenue. Our products are predominantly therapy-based equipment and require no installation. As such, we have no significant installation obligations.

(c) Cash and Cash Equivalents

Cash equivalents include certificates of deposit, commercial paper and other highly liquid investments and are stated at cost, which approximates market. Investments with original maturities of 180 days or less are considered to be cash equivalents for purposes of the condensed consolidated statements of cash flows.

(d) Inventories

Inventories are stated at the lower of cost, determined principally by the first-in, first-out method, or net realizable value. We review and provide for any product obsolescence in our manufacturing and distribution operations with assessments of individual products and components (based on estimated future usage and sales) being performed throughout the year.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(e) Property, Plant and Equipment

Property, plant and equipment, including rental equipment are recorded at cost. Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets, generally two to ten years except for buildings, which are depreciated over an estimated useful life of 40 years. Straight-line and accelerated methods of depreciation are used for tax purposes. Maintenance and repairs are charged to expense as incurred.

We capitalize interest in connection with the construction of facilities. Actual construction costs incurred relating to facilities under active development qualify for interest capitalization. Interest capitalization ceases when the construction of a facility is complete and available for use. During the three months and nine months ended March 31, 2009, we capitalized \$0.3 million and \$1.5 million, respectively, of interest relating to such construction costs. During the three months and nine months ended March 31, 2008, we capitalized interest of \$0.3 million and \$0.9 million, respectively.

(f) Intangible Assets

The registration costs for new patents are capitalized and amortized over the estimated useful life of the patent, generally five years. In the event of a patent being superseded, the unamortized costs are written off immediately.

Other intangible assets are amortized on a straight-line basis over their estimated useful lives, which range from seven to nine years. We evaluate the recoverability of intangible assets periodically and take into account events or circumstances that warrant revised estimates of useful lives or that indicate that impairment exists. All of our intangible assets are subject to amortization. No impairment of intangible assets has been identified during any of the periods presented.

(g) Goodwill

We conducted our annual review for goodwill impairment during the final quarter of fiscal 2008. In conducting our review of goodwill impairment, we identified reporting units, being components of our operating segment, as each of the entities acquired and giving rise to the goodwill. The fair value for each reporting unit was determined based on discounted cash flows and involved a two-step process as follows:

Step 1 - Compare the fair value for each reporting unit to its carrying value, including goodwill. For each reporting unit where the carrying value, including goodwill, exceeds the reporting unit's fair value, move on to step 2. If a reporting unit's fair value exceeds the carrying value, no further work is performed and no impairment charge is necessary.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(g) Goodwill (continued)

Step 2 - Allocate the fair value of the reporting unit to its identifiable tangible and non-goodwill intangible assets and liabilities. This will derive an implied fair value for the goodwill. Then, compare the implied fair value of the reporting unit's goodwill with the carrying amount of the reporting unit's goodwill. If the carrying amount of the reporting unit's goodwill is greater than the implied fair value of its goodwill, an impairment loss must be recognized for the excess.

The results of the review indicated that no impaired goodwill existed.

(h) Foreign Currency

The consolidated financial statements of our non-U.S. subsidiaries, whose functional currencies are other than U.S. dollars, are translated into U.S. dollars for financial reporting purposes. Assets and liabilities of non-U.S. subsidiaries whose functional currencies are other than U.S. dollars are translated at period-end exchange rates, and revenue and expense transactions are translated at average exchange rates for the period. Cumulative translation adjustments are recognized as part of comprehensive income, as described in Note 5, and are included in accumulated other comprehensive income in the condensed consolidated balance sheet until such time as the subsidiary is sold or substantially or completely liquidated. Gains and losses on transactions denominated in other than the functional currency of the entity are reflected in operations.

(i) Research and Development

All research and development costs are expensed in the period incurred.

(j) Earnings Per Share

We calculate earnings per share in accordance with Statement of Financial Accounting Standards No. 128, "Earnings per Share" ("SFAS 128"), as amended by SFAS No. 123(R), "Share Based Payments" ("SFAS 123(R)"). SFAS 128 requires the presentation of "basic" earnings per share and "diluted" earnings per share. Basic earnings per share is computed by dividing the net income available to common stockholders by the weighted average number of shares of common stock outstanding. For purposes of calculating diluted earnings per share, the denominator includes both the weighted average number of shares of common stock outstanding and the number of dilutive common stock equivalents such as stock options.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(j) Earnings Per Share (continued)

The weighted average shares used to calculate basic earnings per share were 75,821,000 and 77,516,000 for the three months ended March 31, 2009 and 2008, respectively and were 75,725,000 and 77,510,000 for the nine months ended March 31, 2009 and 2008. The difference between basic earnings per share and diluted earnings per share is attributable to the impact of outstanding stock options during the periods presented. Stock options had the effect of increasing the number of shares used in the calculation (by application of the treasury stock method) by 1,434,000 and 1,089,000 for the three months ended March 31, 2009 and 2008, respectively and 1,539,000 and 1,205,000 for the nine months ended March 31, 2009 and 2008, respectively.

Stock options of 8,065,000 and 6,080,000 for the three months ended March 31, 2009 and 2008, respectively, and stock options of 7,360,000 and 4,601,000 for the nine months ended March 31, 2009 and 2008, respectively, were not included in the computation of diluted earnings per share as the effect of exercising these options would have been anti-dilutive.

Basic and diluted earnings per share for the three months ended March 31, 2009 and 2008 and the nine months ended March 31, 2009 and 2008 are calculated as follows (in thousands except per share data):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2009	2008	2009	2008
Numerator:				
Net income, used in calculating diluted earnings per share	\$ 39,198	\$ 29,684	\$ 101,078	\$ 80,669
Denominator:				
Basic weighted-average common shares outstanding	75,821	77,516	75,725	77,510
Effect of dilutive securities:				
Stock options	1,434	1,089	1,539	1,205
Diluted weighted average shares	77,255	78,605	77,264	78,715
Basic earnings per share	\$ 0.52	\$ 0.38	\$ 1.33	\$ 1.04
Diluted earnings per share	\$ 0.51	\$ 0.38	\$ 1.31	\$ 1.02

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(k) Financial Instruments

The carrying value of financial instruments, such as cash and cash equivalents, accounts receivable and accounts payable, approximate their fair value because of their short-term nature. The carrying value of long-term debt approximates the fair value as the principal amounts outstanding are subject to variable interest rates that are based on market rates which are regularly reset. Foreign currency option contracts are marked to market and therefore reflect their fair value. We do not hold or issue financial instruments for trading purposes. The fair value of financial instruments is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties.

(l) Foreign Exchange Risk Management

We enter into various types of foreign exchange contracts in managing our foreign exchange risk, including derivative financial instruments encompassing forward exchange contracts and foreign currency options.

The purpose of our foreign currency hedging activities is to protect us from adverse exchange rate fluctuations with respect to net cash movements resulting from the sales of products to foreign customers and our Australian manufacturing activities. We enter into foreign currency option contracts to hedge anticipated sales and manufacturing costs, principally denominated in Australian dollars, Euros and British Pounds Sterling. The terms of such foreign currency option contracts generally do not exceed three years.

Our foreign currency derivatives portfolio represents a cash flow hedge program against the net cash flow of our international manufacturing operations. We have determined our hedge program to be a non-effective hedge as defined under Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities". The foreign currency derivatives portfolio is recorded in the condensed consolidated balance sheets at fair value and included in other assets or other liabilities.

All movements in the fair value of the foreign currency derivatives are recorded within other income, net in our condensed consolidated statements of income.

We are exposed to credit-related losses in the event of non-performance by counter parties to financial instruments. The credit exposure of foreign exchange options at March 31, 2009 and June 30, 2008 was \$2.2 million and \$5.0 million, respectively, which represents the positive fair value of options held by us. These values are included in other assets on the condensed consolidated balance sheets.

We held foreign currency option contracts with notional amounts totaling \$149.3 million and \$180.6 million at March 31, 2009 and June 30, 2008, respectively, to hedge foreign currency fluctuations. These contracts mature at various dates prior to December 31, 2010.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(m) Income Taxes

Income taxes are accounted for in accordance with SFAS No. 109 (“SFAS No. 109”), “Accounting for Income Taxes”, which requires deferred tax assets and liabilities to be recognized using enacted tax rates for the effect of temporary differences between the financial statement and tax bases of recorded assets and liabilities. SFAS No. 109 also requires that deferred tax assets be reduced by a valuation allowance if it is more likely than not that a portion of the deferred tax asset will not be realized. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. We have determined that our future taxable income will be sufficient to recover our deferred tax assets, reported net of any valuation allowance. If in the future we determine that a change has occurred which will not allow this recovery, we will revise any valuation allowance against our deferred tax assets. This will result in a charge against our income tax provision.

The calculation of our effective tax rate is dependant upon the geographic composition of our world wide earnings, tax regulations governing each region and the availability of tax credits. In addition, the calculation of our tax liabilities involves uncertainties in the application of complex tax laws and regulations. We recognize these uncertainties based on FIN 48, “Accounting for Uncertainty in Income Taxes”. The final payment of the amounts regarding these uncertainties may ultimately prove to be less than or greater than our estimate. If this occurs there will be either a benefit or a charge to our income tax provision.

(n) Investment Securities

Management determines the appropriate classification of our investments in debt and equity securities at the time of purchase and re-evaluates such determination at each balance sheet date. Debt securities for which we do not have the intent or ability to hold to maturity are classified as available-for-sale. Securities available-for-sale are carried at fair value, with the unrealized gains and losses, net of tax, reported in accumulated other comprehensive income.

At March 31, 2009 and June 30, 2008, the investments in debt securities are classified on the accompanying condensed consolidated balance sheet as investment securities.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(o) Warranty

Estimated future warranty costs related to certain products are charged to operations in the period in which the related revenue is recognized. The liability for warranty costs is included in accrued expenses in our condensed consolidated balance sheets.

Changes in the liability for product warranty for the nine months ended March 31, 2009 are as follows (in thousands):

Balance at July 1, 2008	\$ 6,863
Warranty accruals for the nine months ended March 31, 2009	7,336
Warranty costs incurred for the nine months ended March 31, 2009	(5,228)
Foreign currency translation adjustments	(1,733)
Balance at March 31, 2009	\$ 7,238

(p) Impairment of Long-Lived Assets

We periodically evaluate the carrying value of long-lived assets to be held and used, including certain identifiable intangible assets, when events and circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell.

(q) Cost-Method Investments

The aggregate carrying amount of our cost-method investments at March 31, 2009 and June 30, 2008, was \$0.8 million and \$1.4 million, respectively. We review the carrying value of these investments at each balance sheet date and during the three and nine months ended March 31, 2009, we recognized \$0.2 million and \$1.3 million of impairment losses, respectively. This was based on the determination that the impairment was other-than temporary. The written down investments include privately held service companies and research companies. The expense associated with this impairment has been included in the other income (expense) line within the consolidated statements of income. We have determined, subsequent to the impairment charge, that the carrying value of the investments do not exceed their estimated fair values.

(2) Summary of Significant Accounting Policies, Continued

(r) Stock-Based Employee Compensation, Continued

We have granted stock options to personnel, including officers and directors, under our 2006 Incentive Award Plan, as amended (the “2006 Plan”) and the Amended and Restated ResMed Inc. 2006 Incentive Award Plan (the “2006 Amended Plan”). These options have expiration dates of seven years from the date of grant and vest over four years. We granted these options with the exercise price equal to the market value as determined at the date of grant. We have also offered to our personnel, including officers and directors, the right to purchase shares of our common stock at a discount under our employee stock purchase plan (“ESPP”).

In accordance with SFAS 123(R) we use the modified prospective method, which requires measurement of compensation expense of all stock-based awards at fair value on the date of grant and recognition of compensation expense over the service period for awards expected to vest. Under this method, the provisions of SFAS 123(R) apply to all awards granted or modified after the date of adoption. In addition, the unrecognized expense of awards not yet vested at the date of adoption, determined under the original provisions of SFAS No. 123 shall be recognized in net income in the periods after adoption. The fair value of stock options is determined using the Black-Scholes valuation model. Such value is recognized as expense over the service period, using the graded-attribution method for stock-based awards granted prior to July 1, 2005 and the straight-line method for stock-based awards granted after July 1, 2005.

The fair value of stock options granted under our stock option plans and purchase rights granted under our ESPP is estimated on the date of the grant using the Black-Scholes valuation model, assuming no dividends and the following assumptions:

	Three months ended March 31,		Nine months ended March 31,	
	2009	2008	2009	2008
Stock options:				
Weighted average grant date fair value	\$11.96	\$10.99 - \$13.96	\$10.56	\$10.99 - \$13.96
Weighted average risk-free interest rate	2.1%	2.6 - 3.1%	1.9%	2.6 - 4.6%
Expected option life in years	4.8	4.2 - 4.8	4.0 - 4.8	4.0 - 4.8
Expected volatility	37%	27 - 28%	27 - 38%	27 - 28%
ESPP purchase rights:				
Weighted average risk-free interest rate	0.9%	3.9%	1.3%	3.9 - 5.0%
Expected option life in years	6 months	6 months	6 months	6 months
Expected volatility	55%	23%	33 - 55%	23 - 30%

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(r) Stock-Based Employee Compensation, Continued

Expected volatilities are based on a combination of historical volatilities of our stock and the implied volatilities from traded options of our stock corresponding to the expected term of the options. We use a combination of the historic and implied volatilities as we believe the addition of the implied volatility is more representative of our future stock price trends. While there is a tradable market of options on our common stock less emphasis is placed on the implied volatility of these options due to the relative low volumes of these traded options and the difference in the terms compared to our employee options. The expected life represents the weighted average period of time that options granted are expected to be outstanding giving consideration to vesting schedules and our historical exercise patterns. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the option.

(s) Reclassifications

Certain prior period amounts have been reclassified to conform with the current period classification.

(3) Investment Securities

The estimated fair value of investment securities as of March 31, 2009 and June 30, 2008 are \$4.5 million and \$4.6 million, respectively. These investments are diversified among high credit quality investment grade securities in accordance with our investment policy. Expected maturities may differ from contractual maturities because the issuers of the securities may have the right to prepay obligations without prepayment penalties.

At March 31, 2009, our investment securities were held in AAA rated auction securities with various maturities between July 2039 and November 2047. These investments had regular roll-over or auction dates at which time the interest rates were re-set or the investments were redeemed for cash. During the nine months ended March 31, 2009, there were no auctions with respect to these investments due to the current liquidity issues surrounding the domestic and global capital markets. We continue to earn interest on these investments in accordance with the contract until the next auction occurs. During November 2008, we accepted an offer from UBS that gave us a right to sell our investment securities back to UBS at full par value after June 29, 2010. However, in the event we need to access the funds invested in these auction rate securities prior to June 29, 2010 we may not be able to liquidate these securities at the par value. Therefore given the current market liquidity conditions and our intention to hold these investments until the rights under the UBS offer can be exercised on June 29, 2010 we have reclassified these securities from current to non-current assets. We also believe the current lack of liquidity of these investments is temporary and have therefore recorded the excess of the carrying value of \$0.5 million over the fair value to comprehensive income within stockholders' equity. Additionally, based on our ability to access our cash and cash equivalents, expected operating cash flows, and other sources of cash, we do not anticipate the current lack of liquidity on these investments will affect our ability to operate the business in the ordinary course.

(4) Inventories

Inventories were comprised of the following at March 31, 2009 and June 30, 2008 (in thousands):

	March 31, 2009	June 30, 2008
Raw materials	\$53,517	\$58,768
Work in progress	1,859	2,165
Finished goods	92,298	97,318
	\$147,674	\$158,251

(5) Comprehensive Income

The components of comprehensive income, net of tax, were as follows (in thousands):

	Three months ended March 31,		Nine months ended March 31,	
	2009	2008	2009	2008
Net income	\$ 39,198	\$29,684	\$ 101,078	\$ 80,669
Foreign currency translation gains/(losses)	(18,163)	39,074	(199,768)	68,381
Unrealized gain/(loss) on investment securities	452	-	(118)	-
Comprehensive (loss)/income	\$ 21,512	\$68,758	(\$ 98,783)	\$149,050

We do not provide for U.S. income taxes on foreign currency translation adjustments since we do not provide for such taxes on undistributed earnings of foreign subsidiaries.

(6) Property, Plant and Equipment

Property, plant and equipment were comprised of the following as of March 31, 2009 and June 30, 2008 (in thousands):

	March 31, 2009	June 30, 2008
Machinery and equipment	\$74,735	\$83,543
Computer equipment	77,943	85,856
Furniture and fixtures	25,860	36,126
Vehicles	2,614	3,099
Clinical, demonstration and rental equipment	57,612	64,506
Leasehold improvements	18,432	22,609
Land	51,237	63,615
Buildings	123,230	169,076
Construction in progress	86,502	37,073
	518,165	565,503
Accumulated depreciation and amortization	(183,419)	(208,446)
	\$334,746	\$357,057

RESMED INC. AND SUBSIDIARIES

(7) Goodwill

Changes in the carrying amount of goodwill for the nine months ended March 31, 2009 were as follows (in thousands):

Balance at July 1, 2008	\$234,647
Foreign currency translation adjustments	(32,415)
Payment of earn-out relating to prior period business acquisition	322
Balance at March 31, 2009	\$202,554

(8) Other Intangible Assets

Other intangible assets are comprised of the following as of March 31, 2009 and June 30, 2008 (in thousands):

	March 31, 2009	June 30, 2008
Developed/core product technology	\$32,467	\$38,607
Accumulated amortization	(17,927)	(17,181)
Developed/core product technology, net of accumulated amortization	14,540	21,426
Trade names	1,723	2,049
Accumulated amortization	(951)	(912)
Trade names, net of accumulated amortization	772	1,137
Customer relationships	16,026	19,205
Accumulated amortization	(7,575)	(7,341)
Customer relationships, net of accumulated amortization	8,451	11,864
Patents	26,413	31,626
Accumulated amortization	(16,577)	(19,282)
Patents, net of accumulated amortization	9,836	12,344
Other intangibles, net of accumulated amortization	\$33,599	\$46,771

Intangible assets consist of patents, customer relationships, trade names and developed/core product technology and are amortized over the estimated useful life of the assets, generally between five and nine years. There are no expected residual values related to these intangible assets.

(9) Long-Term Debt

Long-term debt at March 31, 2009 and June 30, 2008 consists of the following (in thousands):

	March 31, 2009	June 30, 2008
Long-term loans	\$66,565	\$43,775

(9) Long-Term Debt, Continued

Revolving Facility

On February 27, 2009, ResMed Inc., and our wholly-owned subsidiaries, ResMed Corp., ResMed EAP Holdings Inc. and ResMed Motor Technologies Inc., entered into a Third Amendment to the March 1, 2006 Second Amended and Restated Revolving Loan Agreement with Union Bank of California, N.A.

The loan agreement was changed in order that the revolving commitment at \$65 million remain unchanged as otherwise it would have been reduced to \$55 million as of March 1, 2009. The entire outstanding principal amount must be repaid in full before March 1, 2011. The outstanding principal amount due under the loan will bear interest at a rate equal to LIBOR plus 0.75% to 1.00% (depending on the applicable leverage ratio). At March 31, 2009, there was \$64.1 million outstanding under this loan facility.

The obligations of ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc. under the Loan Agreement are secured by substantially all of the personal property of each of ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc., and are guaranteed by ResMed Inc. under an Amended and Restated Continuing Guaranty and Pledge Agreement, which guaranty is secured by a pledge of the equity interests in ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc. held by ResMed Inc. The Loan Agreement also contains customary covenants, including certain financial covenants and an obligation that ResMed Inc. maintain certain financial ratios, including a maximum ratio of total debt to EBITDA (as defined in the Loan Agreement), a fixed charge coverage ratio, a minimum tangible net worth, and a minimum ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc. EBITDA.

In the third amendment, the loan agreement was also amended for specific provisions related to these obligations to maintain certain financial covenants. The minimum fixed charge coverage ratio was revised to exclude capital expenditures related to construction of our new headquarters building. The requirement that ResMed Corp. and ResMed Motor Technologies Inc. maintain minimum earnings before interest, taxes, depreciation and amortization, or EBITDA, was increased to \$15 million. Finally, the requirement that we meet certain minimum liquidity was eliminated.

The entire principal amount of the revolving loan and any accrued but unpaid interest may be declared immediately due and payable in the event of the occurrence of an event of default as defined in the Loan Agreement. Events of default include, among other items, failure to make payments when due, the occurrence of a material default in the performance of any covenants in the Loan Agreement or related document or a 35% or more change in control of ResMed Inc., ResMed Corp., ResMed Motor Technologies Inc. or ResMed EAP Holdings Inc. At March 31, 2009, we were in compliance with our debt covenants.

(9) Long-Term Debt, Continued

Syndicated Facility

On June 8, 2006, our wholly owned Australian subsidiary, ResMed Limited, entered into a Syndicated Facility Agreement with HSBC Bank Australia Limited as original financier, facility agent and security trustee, that provides for a loan in three tranches (the “Syndicated Facility Agreement”).

Tranche A is a Euro (“EUR”) 50 million five-year term loan facility that refinanced all amounts outstanding under a syndicated facility agreement dated May 16, 2005, between ResMed Limited and HSBC Bank Australia Limited, to fund the obligations of our wholly owned French subsidiary ResMed SAS under its agreement to acquire Saime SAS. Tranche A bears interest at a rate equal to LIBOR for deposits denominated in EUR plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of ResMed Inc. and its subsidiaries (the “ResMed Group”) for the most recently completed fiscal year for the applicable interest period.

Payments of principal must be made to reduce the total outstanding principal amount of Tranche A to EUR 27.5 million on June 30, 2009, EUR 15 million on December 31, 2009, and the entire outstanding principal amount must be repaid in full on June 8, 2011. At March 31, 2009, the Tranche A facility loan had an amount outstanding of EUR 27.5 million, equivalent to approximately U.S. dollars (“USD”) 36.4 million.

Tranche B is a USD 15 million term loan facility that may only be used for the purpose of financing capital expenditures and other asset acquisitions by the ResMed Group. Tranche B bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars, USD or British Pounds Sterling plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire principal amount must be repaid in full on June 8, 2011. At March 31, 2009 there was \$9.0 million outstanding under this loan facility.

Tranche C is a USD 60 million term loan facility that may only be used for the purpose of the payment by ResMed Limited of a dividend to ResMed Holdings Limited, which will ultimately be paid to ResMed Inc. Tranche C bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars or USD plus a margin of 0.70% or 0.80%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire outstanding principal amount must be repaid in full by June 8, 2009. At March 31, 2009, there were no amounts outstanding under this loan facility.

Simultaneous with the Syndicated Facility Agreement, ResMed Limited entered into a working capital agreement with HSBC Bank Australia Limited for revolving, letter of credit and overdraft facilities up to a total commitment of 6.5 million Australian dollars, and ResMed (UK) Limited entered into a working capital agreement with HSBC Bank plc for a revolving cash advance facility for a total commitment of up to 3 million British Pounds Sterling. At March 31, 2009, there were no amounts outstanding under any of these arrangements.

(9) Long-Term Debt, Continued

First Amended and Restated Syndicated Facility Agreement

On September 30, 2008, our wholly-owned Australian subsidiary, ResMed Limited, agreed to amend and restate the Syndicated Facility Agreement entered into on June 8, 2006. The amended and restated agreement (“First Amended and Restated Syndicated Facility Agreement”) with the Hong Kong and Shanghai Banking Corporation, Sydney Branch as financier and HSBC Bank Australia Limited as facility agent and security trustee, provides for an additional Tranche D term loan facility in the amount of 50 million US dollars. The financier has the right to assign part or all of its rights and/or obligations under the First Amended and Restated Syndicated Facility Agreement to other financial institutions.

The additional \$50 million loan facility will be used for general corporate purposes. The additional loan facility bears interest at a rate equal to LIBOR for deposits denominated in US dollars, plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of ResMed Inc. and subsidiaries for the most recently completed fiscal year for the applicable interest period. The entire principal amount of the additional loan facility must be repaid in full by September 30, 2009. At March 31, 2009 there was \$50.0 million outstanding under this loan facility.

The loan facility is secured by a pledge of one hundred percent of the shares of ResMed Inc.’s subsidiary, Saime SAS, pursuant to a pledge agreement. The Syndicated Facility Agreement also contains customary covenants, including certain financial covenants and an obligation that ResMed Limited maintains certain financial ratios, including a minimum debt service cover ratio, a maximum ratio of total debt to EBITDA and a minimum tangible net worth. The entire principal amount of the loan and any accrued, but unpaid, interest may be declared immediately due and payable in the event of the occurrence of an event of default as defined in the Syndicated Facility Agreement. Events of default include, among other items, failure to make payments when due, breaches of representations, warranties or covenants, the occurrence of certain insolvency events, the occurrence of an event or change which could have a material adverse effect on ResMed Limited and its subsidiaries, and if ResMed Inc. ceases to control ResMed Limited, ResMed Corp., ResMed SAS, ResMed GmbH & Co. KG, ResMed (UK) Limited, Take Air Medical Handels-GmbH or Saime SAS.

The obligations of ResMed Limited under the loan facility are subject to two guarantee and indemnity agreements, one on behalf of ResMed Inc. and its U.S. subsidiary, ResMed Corp., and another on behalf of ResMed’s international subsidiaries, ResMed SAS (other than Tranche C), ResMed GmbH & Co. KG, ResMed (UK) Limited and Take Air Medical Handels-GmbH. At December 31, 2008, we were in compliance with our debt covenants.

Details of contractual debt maturities at March 31, 2009 are as follows (in thousands):

	Payments Due by Period						
	Total	2010	2011	2012	2013	2014	Thereafter
Long-term debt	\$159,580	\$ 66,565	\$ 64,137	\$ 28,878	\$ -	\$ -	\$-

(Unaudited)

(10) Restructuring Expenses

No restructuring expenses were incurred during the three months and nine months ended March 31, 2009. Restructuring expenses incurred during the three and nine months ended March 31, 2008 were \$62,000 (\$49,000 net of tax) and \$2.4 million (\$1.9 million net of tax), respectively. Restructuring expenses consisted predominantly of expenses associated with our decision to streamline European management including the closure of part of the European headquarters in Basel, Switzerland and two regional offices in the Netherlands. This mainly comprised of employee termination costs, leasehold improvement write-downs and property lease exit costs.

Following is a summary of the restructuring liabilities related to the restructure of our European operations during the nine months ended March 31, 2009 (in thousands):

	Accrued employee costs	Other accrued costs	Total accrued costs
Balance at July 1, 2008	\$97	\$98	\$195
Cash payments and asset write-downs	(97)	(98)	(195)
Balance at March 31, 2009	\$-	\$-	\$-

(11) Stockholders' Equity

Common Stock. On June 6, 2002, the Board of Directors authorized us to repurchase up to 8.0 million shares of outstanding common stock. During the three months and nine months ended March 31, 2009, we repurchased 0.8 and 1.5 million shares at a cost of \$26.6 million and \$52.7 million, respectively. At March 31, 2009, we have repurchased a total of 6.4 million shares at a cost of \$195.7 million. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share.

Preferred Stock. In April 1997, the Board of Directors authorized 2,000,000 shares of \$0.01 par value preferred stock. No such shares were issued or outstanding at March 31, 2009 or June 30, 2008.

Employee Stock Purchase Plan (the "ESPP"). The ESPP was approved by our stockholders at the Annual General Meeting in November 2003. Under the ESPP, participants are offered the right to purchase shares of our common stock at a discount during successive offering periods. Each offering period under the ESPP will be for a period of time determined by the Board of Directors' Compensation Committee of no less than 3 months and no more than 27 months. The purchase price for our common stock under the ESPP will be the lower of 85% of the fair market value of our common stock on the date of grant or 85% of the fair market value of our common stock on the date of purchase. An individual participant cannot subscribe for more than \$25,000 in common stock during any calendar year. On August 21, 2006, the Board of Directors approved a reduction in the number of shares available for grant under the ESPP to 500,000 shares, effective as of November 9, 2006, the date of the stockholder approval of the 2006 Plan. The number of securities remaining available for future issuance under the ESPP at March 31, 2009 is 193,000.

During the three months and nine months ended March 31, 2009, we recognized \$0.7 million and \$1.5 million, respectively of stock-based compensation expense associated with the ESPP and issued 68,520 shares at a share price of \$29.97.

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements

(11) Stockholders' Equity, Continued

Stock Options. We have granted stock options to personnel, including officers and directors, in accordance with the 2006 Plan and the 2006 Amended Plan, which was approved at the annual meeting of the stockholders of RedMed Inc. on November 20, 2008. These options have expiration dates of seven years from the date of grant and vest over four years. We have granted these options with an exercise price equal to the market value as determined at the date of grant.

The maximum number of shares of our common stock authorized for issuance under the 2006 Amended Plan is 9,900,000, an increase from 7,800,000 shares formerly authorized for issuance under the 2006 Plan. The number of securities remaining available for future issuance under the 2006 Amended Plan at March 31, 2009 is 2,859,000. The number of shares of our common stock available for issuance under the 2006 Amended Plan will be reduced by (i) two and four tenths (2.4) shares, an increase from two and one tenth (2.1) shares, for each one share of common stock delivered in settlement of any "full-value award," which is any award other than a stock option, stock appreciation right or other award for which the holder pays the intrinsic value and (ii) one share for each share of common stock delivered in settlement of all other awards. The maximum number of shares, which may be subject to awards granted under the 2006 Amended Plan to any individual during any calendar year, may not exceed 1,500,000 shares of our common stock, an increase from 1,000,000 shares under the 2006 Plan.

At March 31, 2009, there was \$56.2 million in unrecognized compensation costs related to unvested stock-based compensation arrangements. This is expected to be recognized over a weighted average period of 2.7 years. The aggregate intrinsic value of the options outstanding and the options exercisable at March 31, 2009 was \$50.9 million and \$41.5 million, respectively. The aggregate intrinsic value of the options exercised during the three months and nine months ended March 31, 2009 was \$6.6 million and \$14.3 million respectively. The total fair value of options that vested during the three months and nine months ended March 31, 2009 was \$5.9 million and \$22.6 million, respectively.

The following table summarizes option activity during the nine months ended March 31, 2009:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Term in Years
Outstanding at beginning of period	9,683,816	\$34.69	5.6
Granted	2,437,450	31.69	
Exercised	(765,535)	22.80	
Forfeited	(275,675)	42.92	
Outstanding at end of period	11,080,056	34.67	5.4
Exercise price range of granted options	\$31.04 - \$43.35		
Options exercisable at end of period	5,599,126	31.24	

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(12) Legal Actions and Contingencies

In the normal course of business, we are subject to routine litigation incidental to our business. While the results of this litigation cannot be predicted with certainty, we believe that their final outcome will not have a material adverse effect on our consolidated financial statements taken as a whole.

During September and October 2004, we began receiving tax assessment notices for the audit of one of our German subsidiaries by the German tax authorities for the years 1996 through 1998. Certain aspects of these assessment notices are being contested and appealed to the German tax authority office. As the outcome of the appeal cannot be predicted with certainty, any tax issues resolved in a manner not consistent with our expectations may require us to adjust our provision for income tax in the period of resolution.

In February 2007, the University of Sydney commenced legal action in the Federal Court of Australia against us, claiming breach of a license agreement and infringement of certain intellectual property. The claim has been amended to include an allegation of breach of confidentiality. The university is seeking various types of relief, including an injunction against manufacturing, supplying, offering for sale, selling or exporting certain mask devices, payment of license fees, damages or an account of profits, interest, costs and declaration of a constructive trust over and assignment of certain intellectual property. In October 2007, we filed a defense denying the university's claim, as well as a cross-claim against the university seeking an order for rectification of the contract and alleging the university violated the Australian Trade Practices Act. The matter is ongoing. We do not expect the outcome of this matter to have a material adverse effect on our consolidated financial statements.

(13) Voluntary Product Recall Expenses

On April 23, 2007, we initiated a worldwide voluntary recall of approximately 300,000 units of our S8 flow generators, manufactured between July 2004 and May 15, 2006, as there is a remote potential for a short circuit in the power supply connector. We have worked with our distribution partners globally to provide a replacement device to patients who have an affected S8 flow generator. The initial estimated cost of this action was \$59.7 million which was recognized as a charge to cost of sales in the consolidated statement of income during the year ended June 30, 2007. During the year ended June 30, 2008, the three months ended March 31, 2009 and the nine months ended March 31, 2009 we also recognized additional charges of \$3.1 million, nil and \$0.2 million, respectively, due to an increase in return rates and consulting charges. These costs represented our best estimate of probable costs based on current available data and accounted for factors such as expected return rates for the affected units, unit replacement costs, legal, consulting, logistical and temporary contractor expenses directly associated with the recall. We expect negligible additional costs associated with the recall and at March 31, 2009 there is no remaining recall accrual.

(14) Fair Value Measurements

On July 1, 2008 we adopted the provisions of FASB Statement No. 157, "Fair Value Measurements" ("FAS 157") for financial assets and liabilities recognized on a recurring basis. In accordance with FASB Staff Position 157-2, Effective date of FASB Statement 157, we have deferred the applications of FAS 157 for our nonfinancial assets and liabilities until fiscal year 2010. FAS157 defines fair value, establishes a framework for measuring fair value and expands the disclosure requirements for fair value measurements. The adoption of FAS 157 for financial assets and liabilities did not have a material impact on our consolidated financial statements.

In determining the fair value measurements of our financial assets and liabilities, we consider the principal and most advantageous market in which we transact and consider assumptions that market participants would use when pricing the financial asset or liability. In accordance with FAS157, we maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The hierarchies of inputs required by FAS157 are as follows:

- Level 1: Input prices quoted in an active market for identical financial assets or liabilities;
- Level 2: Inputs other than prices quoted in Level 1, such as prices quoted for similar financial assets and liabilities in active markets, prices for identical assets and liabilities in markets that are not active or other inputs that are observable or can be corroborated by observable market data
- Level 3: Input prices quoted that are significant to the fair value of the financial assets or liabilities which are not observable nor supported by an active market

RESMED INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(14) Fair Value Measurements, Continued

The following table summarizes our financial assets and liabilities using the valuation input hierarchy (in thousands):

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$327,072	\$-	\$-	\$327,072
Investment securities	-	4,496	-	4,496
Cost-method investments	-	-	792	792
Foreign currency options	-	2,234	-	2,234
	\$327,072	\$6,730	\$792	\$334,594

We determine the fair value of our financial assets as follows:

Cash and cash equivalents – The valuation used for our cash and other money market funds are derived from quoted market prices due to their short term nature and there is an active market for these financial instruments.

Investment securities – These securities represent our auction rate securities as described in Note 3. At March 31, 2009, we had investments totaling \$5.0 million at par value with an estimated fair value of \$4.5 million. The value of these securities are calculated by third party valuation models based on observable market prices and inputs including future cash flows, yields and spreads.

Cost-method investments – These investments include our holdings in privately held service companies and research companies that are not exchange traded and therefore not supported with observable market prices. However, these investments are valued by reference to their net asset values which can be market supported and observable inputs including future cash flows.

Foreign currency options – These financial instruments are valued using third party valuation models based on market observable inputs, including interest rate curves, on market spot currency prices, volatilities and credit risk.

The following table shows a reconciliation of the nine months ended March 31, 2009 for fair value measurements using significant unobservable inputs (thousands):

	Cost-Method Investments
Balance at July 1, 2008	\$1,405
Purchases	899
Impairment of cost-method investment	(1,306)
Foreign currency translation	(206)
Balance at March 31, 2009	\$792

Special Note Regarding Forward-Looking Statements

This report contains or may contain certain forward-looking statements and information that are based on the beliefs of our management as well as estimates and assumptions made by, and information currently available to, our management. All statements other than statements regarding historical facts are forward-looking statements. The words "believe," "expect," "anticipate," "will continue," "will," "estimate," "plan," "future" and other similar expressions, and negative statements of such expressions, generally identify forward-looking statements, including, in particular, statements regarding the development and approval of new products and product applications, market expansion, pending litigation and the development of new markets for our products, such as cardiovascular and stroke markets. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on these forward-looking statements. Such forward-looking statements reflect the views of our management at the time such statements are made and are subject to a number of risks, uncertainties, estimates and assumptions, including, without limitation, and in addition to those identified in the text surrounding such statements, those identified in our Annual Report on Form 10-K for the fiscal year ended June 30, 2008 and elsewhere in this report.

In addition, important factors to consider in evaluating such forward-looking statements include changes or developments in social, economic, market, legal or regulatory circumstances, changes in our business or growth strategy or an inability to execute our strategy due to changes in our industry or the economy generally, the emergence of new or growing competitors, the actions or omissions of third parties, including suppliers, customers, competitors and governmental authorities and various other factors. Should any one or more of these risks or uncertainties materialize, or underlying estimates or assumptions prove incorrect, actual results may vary significantly from those expressed in such forward-looking statements, and there can be no assurance that the forward-looking statements contained in this report will in fact occur.

Before deciding to purchase, hold or sell our common stock, you should carefully consider the risks described in our annual report on Form 10-K, in addition to the other cautionary statements and risks described elsewhere in this report and in our other filings with the SEC, including our subsequent reports on Forms 10-Q and 8-K. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. If any of these known or unknown risks or uncertainties actually occurs with material adverse effects on us, our business, financial condition and results of operations could be seriously harmed. In that event, the market price for our common stock will likely decline and you may lose all or part of your investment.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following is an overview of our results of operations for the three and nine months ended March 31, 2009. Management's discussion and analysis ("MD&A") of financial condition and results of operations is intended to help the reader understand the results of operations and financial condition of Resmed Inc. MD&A is provided as a supplement to, and should be read in conjunction with selected financial data and consolidated financial statements and notes, included herein.

During the three and nine months ended March 31, 2009 we continued our efforts to build awareness of the consequences of untreated sleep-disordered breathing, or SDB, and to grow our business in this market. In our efforts we have attempted to raise awareness through market and clinical initiatives highlighting the increasing link between the potential effects SDB can have on cardiovascular diseases and Type 2 diabetes. In September 2008, the European Society of Cardiologists published guidelines for the treatment of acute and chronic heart failure. For the first time, the guidelines noted that patients with symptomatic heart failure frequently have sleep-related disorders (central or obstructive sleep apnea) and recommended treatment with Continuous Positive Airway Pressure, or CPAP, for patients diagnosed with obstructive sleep apnea. Just three months earlier the International Diabetes Federation issued a consensus statement on sleep disordered breathing and Type 2 Diabetes, where the substantial value of identifying and treating diabetic patients suffering from sleep disordered breathing was also recognized and recommended. The increasing awareness among the co-morbidity specialists supports the efforts and investment we are making in new markets, including diabetes and cardiology.

We are committed to ongoing investment in research and development and product enhancements. During the three months and nine months ended March 31, 2009 we invested \$13.9 million and \$46.1 million, respectively on research and development activities. Since the development of CPAP, we have developed a number of innovative products for SDB and other respiratory disorders including airflow generators, diagnostic products, mask systems, headgear and other accessories. Our new product release schedule remains active across both our mask and flow generator categories. We have introduced new masks in both Europe and the US during fiscal 2009, including the release of Swift LT for Her, which was the first nasal pillows product released that has been designed and marketed specifically for female patients. Additionally, during the nine months ended March 31, 2009, we released a series of new bilevel flow generators in Europe and in North and Latin America. These products utilize our patented EasyBreathe motor technology, providing performance at up to 90% less noise than other leading competitors.

During the quarter ended March 31, 2009, our net revenue increased by 8% when compared to the quarter ended March 31, 2008. These results were primarily driven by increasing unit sales of our flow generators, masks and accessories, including sales from our new VPAP IV bilevel flow generators and Swift LT nasal pillows. Gross margin was 61.0% for the quarter ended March 31, 2009 compared to 59.7% for the same period in fiscal 2008. For the quarter ended March 31, 2009, we recognized acquisition-related amortization expenses and stock-based compensation costs of \$1.7 million and \$6.7 million, respectively. Diluted earnings per share for the quarter ended March 31, 2009 increased to \$0.51 per share, up from \$0.38 per share in the quarter ended March 31, 2008.

Total operating cash flow for the nine months ended March 31, 2009, was \$168.6 million compared to \$81.0 million for the quarter ended March 31, 2008. At March 31, 2009, our cash and cash equivalents totaled \$327.1 million, our total assets were \$1.3 billion and our stockholders' equity was \$1.0 billion.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Net Revenue

Net revenue increased for the three months ended March 31, 2009 to \$227.9 million compared to \$211.8 million for the three months ended March 31, 2008, an increase of \$16.0 million or 8%. The increase in net revenue is primarily attributable to an increase in unit sales of our flow generators, masks and accessories. Movements in international currencies against the U.S. dollar negatively impacted revenues by approximately \$17.6 million during the three months ended March 31, 2009. Excluding the impact of unfavorable foreign currency movements, net revenue for the three months ended March 31, 2009 increased by 16% compared to the three months ended March 31, 2008.

Net revenue in North and Latin America increased for the three months ended March 31, 2009 to \$122.5 million from \$99.6 million for the three months ended March 31, 2008, an increase of 23%. We believe this growth has been generated by increased public and physician awareness of sleep-disordered breathing and growth generated from our recent product releases including the S8II flow generator, VPAP IV bilevel flow generator, Swift LT nasal pillows mask and Mirage Quattro full-face mask. Net international revenue, which includes all markets outside North and Latin America, for the three months ended March 31, 2009 decreased to \$105.4 million from \$112.2 million compared to the three months ended March 31, 2008, a decrease of 6%. Movements in international currencies against the U.S. dollar negatively impacted international revenues by approximately \$17.6 million during the three months ended March 31, 2009. Excluding the impact of movements in international currencies, international sales grew by 10% compared to the three months March 31, 2008. This international sales growth predominantly reflects growth in the overall sleep-disordered breathing market and growth generated from our recent product releases including the S8II flow generator, VPAP IV bilevel flow generator and Mirage Quattro full-face mask.

Revenue from sales of flow generators, including humidifiers, for the three months ended March 31, 2009 totaled \$131.1 million, an increase of 7% compared to the three months ended March 31, 2008 of \$123.0 million, with an increase of 24% in North and Latin America offset by a decrease of 5% elsewhere. Revenue from sales of masks, motors and other accessories for the three months ended March 31, 2009 totaled \$96.7 million, an increase of 9% compared to the three months ended March 31, 2008 of \$88.9 million, including increases of 22% in North and Latin America offset by a decrease of 8% elsewhere. Excluding the impact of unfavorable currency movements international revenue increased by 11% and 8% for revenue of flow generators and masks, motors and other accessories, respectively for the three months ended March 31, 2009 compared to the three months ended March 31, 2008. We believe these increases primarily reflect growth in the overall sleep-disordered breathing market and contributions from new products.

The following table summarizes the percentage movements in our net revenue for the three months ended March 31, 2009 compared to the three months ended March 31, 2008:

	North and Latin America	International	Total	International (Constant Currency) *	Total (Constant Currency)
Flow generators	24%	(5%)	7%	11%	16%
Masks, motors and other accessories	22%	(8%)	9%	8%	16%
Total	23%	(6%)	8%	10%	16%

* Constant currency numbers exclude the impact of movements in international currencies.

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Net Revenue, continued**

Net revenue for the nine months ended March 31, 2009, increased to \$668.8 million or 11% as compared to \$600.2 million for the nine months ended March 31, 2009. For the nine months ended March 31, 2009, revenue from sales of flow generators increased by 11% compared to the nine months ended March 31, 2008; 22% in North and Latin America and 4% internationally. Revenue from sales of mask systems, motors and other accessories increased by 12%; 20% in North and Latin America and flat internationally, for the nine months ended March 31, 2009 compared to the nine months ended March 31, 2008. Movement in international currencies against the U.S. dollar negatively impacted net revenue by approximately \$23.0 million during the nine months ended March 31, 2009. Excluding the impact of unfavorable currency movements, total revenue for the nine months ended March 31, 2009 increased by 15% compared to the nine months ended March 31, 2008. We believe these increases primarily reflect growth in the overall sleep-disordered breathing market, and strong sales from our new products.

The following table summarizes the percentage movements in our net revenue for the nine months ended March 31, 2009 compared to the nine months ended March 31, 2008:

	North and Latin America	International	Total	International (Constant Currency) *	Total (Constant Currency)
Flow generators	22%	4%	11%	11%	16%
Masks, motors and other accessories	20%	0%	12%	7%	15%
Total	21%	2%	11%	10%	15%

* Constant currency numbers exclude the impact of movements in international currencies.

Gross Profit

Gross profit increased for the three months ended March 31, 2009 to \$138.9 million from \$126.6 million for the three months ended March 31, 2008, an increase of \$12.4 million or 10%. Gross profit as a percentage of net revenue for the three months ended March 31, 2009 increased to 61.0% from 59.7% for the three months ended March 31, 2008. The higher gross margin for the three months ended March 31, 2009 is primarily due to the depreciation of the Australian dollar against the U.S. dollar as the majority of our manufacturing labor and overhead is denominated in Australian dollars, a favorable change in product mix as sales of our higher margin products represented a higher proportion of our sales and cost savings attributable to manufacturing and supply chain improvements.

Gross profit increased for the nine months ended March 31, 2009 to \$397.1 million from \$359.7 million for the nine months ended March 31, 2008, an increase of \$37.4 million or 10%. Gross profit as a percentage of net revenue for the nine months ended March 31, 2009 was 59.4% compared to 59.9% for the nine months ended March 31, 2008. The lower gross margin for the nine months ended March 31, 2009 is primarily due to a general reduction in average selling prices partially offset by cost savings attributable to manufacturing and supply chain improvements and a favorable change in product mix as sales of our higher margin products represented a higher proportion of our sales.

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Selling, General and Administrative Expenses**

Selling, general and administrative expenses increased for the quarter ended March 31, 2009 to \$70.9 million from \$70.1 million for the quarter ended March 31, 2008, an increase of 1%. Stock-based compensation expenses of \$5.7 million and \$4.8 million have been included within the selling, general and administration expenses for the three months ended March 31, 2009 and 2008, respectively. Selling, general and administrative expenses, as a percentage of net revenue, were 31% for the three months ended March 31, 2009 compared to 33% for the three months ended March 31, 2008.

Selling, general and administrative expenses increased for the nine months ended March 31, 2009 to \$212.3 million from \$200.6 million for the nine months ended March 31, 2008, an increase of \$11.6 million or 6%. Stock-based compensation expenses of \$16.1 million and \$13.2 million, have been included within the selling, general and administrative expenses for the nine months ended March 31, 2009 and 2008 respectively. Selling, general and administrative expenses, as a percentage of net revenue, were 32% for the nine months ended March 31, 2009 compared to 33% for the nine months ended March 31, 2008.

The increase in selling, general and administrative expenses was primarily due to an increase in the number of sales and administrative personnel to support our growth and the increase in stock-based compensation expenses. This increase in selling, general and administrative expenses was partly offset by the net depreciation of international currencies against the US dollar, which reduced our expenditure by approximately \$8.7 million and \$13.6 million for the three and nine months ended March 31, 2009, respectively, as reported in U.S. dollars. As a percentage of net revenue, we expect our future selling, general and administrative expenses to continue in the range of 30% to 32%.

Research and Development Expenses

Research and development expenses decreased for the three months ended March 31, 2009 to \$13.9 million, from the \$15.0 million for three months ended March 31, 2008 a decrease of \$1.1 million or 7%. Stock-based compensation expenses of \$0.7 million and \$0.5 million have been included within research and development expenses for the three months ended March 31, 2009 and 2008, respectively. Research and development expenses, as a percentage of net revenue, were 6% for the three months ended March 31, 2009 compared to 7% for the three months ended March 31, 2008.

Research and development expenses increased for the nine months ended March 31, 2009 to \$46.1 million from \$42.9 million for the nine months ended March 31, 2008, an increase of \$3.2 million or 7%. Stock-based compensation expenses of \$2.1 million and \$1.4 million have been included within research and development expenses for the nine months ended March 31, 2009 and 2008, respectively. Research and development expenses, as a percentage of net revenue, were 7%, for the nine months ended March 31, 2009, which is consistent with the 7% for the nine months ended March 31, 2008.

The increase in research and development expenses was primarily due to an increase in charges for consulting fees and an increase in clinical trials. The increase in research and development expenses was partly offset by the net depreciation of international currencies against the U.S. dollar, which lowered our expenses by approximately \$4.4 million and \$7.9 million for the three and nine months ended March 31, 2009, as reported in U.S. dollars. As a percentage of net revenue, we expect our future research and development expense to continue in the range of 6% to 7%.

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Amortization of Acquired Intangible Assets**

Amortization of acquired intangible assets for the three months and nine months ended March 31, 2009 totaled \$1.7 million and \$5.3 million, respectively, as compared to \$2.0 million and \$ 5.7 million for the three months and nine months ended March 31, 2008, respectively. The decrease in amortization expense is mainly attributable to the appreciation of the U.S. dollar against the Euro as the majority of the acquired intangible assets are denominated in Euros.

Donations to Foundation

During the three and nine months ended March 31, 2009, we donated nil and \$1.0 million, respectively, to the ResMed Sleep Disordered Breathing Foundation. The Foundation was established primarily to promote research into the deleterious medical consequences of untreated sleep-disordered breathing. A donation of \$2.0 million was made during the three and nine months ended March 31, 2008.

Restructuring Expenses

No restructuring expenses were incurred during the three months and nine months ended March 31, 2009 compared to \$0.1 million and \$2.4 million, respectively, for the three months and nine months ended March 31, 2008. Restructuring expenses consisted of expenses associated with our decision to streamline European management, including the closure of part of the European headquarters in Basel, Switzerland and two regional offices in the Netherlands.

Other Income (Expense), Net

Other income for the three months ended March 31, 2009 was \$1.1 million, compared to \$6.2 million for the three months ended March 31, 2008. The decrease in other income was predominantly due to the gain on sale of \$5.9 million recognized for the disposal of our building at Poway, California during the three months ended March 31, 2008. This was partly offset by the impairment write-down of our at cost-method investments recognized during the three months ended March 31, 2008 of \$3.2 million compared to \$0.2 million recognized during the three months ended March 31, 2009. The remaining movement is mainly due to foreign currency gains and losses.

Other income (expense), net for the nine months ended March 31, 2009 decreased to \$6.9 million compared to \$10.2 million for the nine months ended March 31, 2008. The decrease in other income for the nine months ended March 31, 2009 is predominantly due to the gain on sale of \$5.9 million recognized for the disposal of our building at Poway, California during the nine months ended March 31, 2008. This was partly offset by the impairment write-down of our at cost-method investments recognized during the nine months ended March 31, 2008 of \$3.2 million compared to \$1.3 million recognized during the nine months ended March 31, 2009. The remaining movement is mainly due to an increase in net interest income due to higher cash balances and an increase in capitalized interest expense.

Income Taxes

Our effective income tax rate of approximately 26.9% for the three months ended March 31, 2009 was lower than our effective income tax rate of approximately 31.9% for the three months ended March 31, 2008. Our effective income tax rate of approximately 27.4% for the nine months ended March 31, 2009 was lower than our effective tax rate of 30.6% for the nine months ended March 31, 2008.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

The lower tax rate was primarily due to a change in the geographic mix of taxable income, including the impact of lower taxes associated with our new Singapore manufacturing operation.

Net Income

As a result of the factors above, our net income for the three months ended March 31, 2009 was \$39.2 million or \$0.51 per diluted share compared to net income of \$29.7 million or \$0.38 per diluted share for the three months ended March 31, 2008.

As a result of the factors above, our net income for the nine months ended March 31, 2009 was \$101.1 million or \$1.31 per diluted share compared to net income of \$80.7 million or \$1.02 per diluted share for the nine months ended March 31, 2008.

Liquidity and Capital Resources

As of March 31, 2009 and June 30, 2008, we had cash and cash equivalents of \$327.1 million and \$321.1 million, respectively. Working capital was \$499.5 million and \$546.6 million at March 31, 2009 and June 30, 2008, respectively.

Inventories at March 31, 2009 decreased by \$21.8 million or 13% to \$147.7 million compared to March 31, 2008 inventories of \$169.5 million. The percentage decrease in inventories reflects improved working capital management and the impact of movements in foreign currency exchange rates, particularly the depreciation of the Australian dollar and Euro relative to the U.S. dollar.

Accounts receivable at March 31, 2009 were \$196.0 million, an increase of \$16.1 million or 9% over the March 31, 2008 accounts receivable balance of \$179.9 million. This increase was largely consistent with the 10% incremental increase in revenues for the three months ended March 31, 2009 compared to the three months ended March 31, 2008. Accounts receivable days outstanding of 74 days at March 31, 2009, increased by 1 day compared to the 73 days at March 31, 2008. Our allowance for doubtful accounts as a percentage of total accounts receivable at March 31, 2009 and June 30, 2008 was 3.6% and 2.5%, respectively. To date we have not experienced any significant adverse decline in the credit quality of our customers and it remains broadly consistent with our past experience.

During the nine months ended March 31, 2009, we generated cash of \$168.6 million from operations. Movements in foreign currency exchange rates during the nine months ended March 31, 2009 had the effect of decreasing our cash and cash equivalents by \$84.4 million, as reported in U.S. dollars. Capital expenditures for the nine months ended March 31, 2009, and 2008 aggregated \$83.9 million and \$57.6 million, respectively. The capital expenditures for the nine months ended March 31, 2009 primarily reflected the construction of our new corporate headquarters in San Diego, California, computer hardware and software, rental and loan equipment and the purchase of production tooling equipment and machinery. As a result of these capital expenditures, our balance sheet reflects net property, plant and equipment of approximately \$334.7 million at March 31, 2009.

We are currently developing new corporate headquarters in San Diego, California. To date we have incurred expenditures of \$82.5 million in relation to the construction of our new corporate headquarters and we estimate additional construction and fit-out costs of approximately \$21.2 million to complete the project. We expect to complete the project in the final quarter of fiscal 2009 and to fund the remaining project costs through a combination of cash on hand and operating cash flows.

* The above guarantees relate mainly to guarantees required as part of our debt facilities and requirements under contractual obligations with insurance companies transacting with our German subsidiaries.

Revolving Facility

On February 27, 2009, ResMed Inc., and our wholly-owned subsidiaries, ResMed Corp., ResMed EAP Holdings Inc. and ResMed Motor Technologies Inc., entered into a Third Amendment to the March 1, 2006 Second Amended and Restated Revolving Loan Agreement with Union Bank of California, N.A.

The loan agreement was amended in order that the revolving commitment at \$65 million remain unchanged as otherwise it would have been reduced to \$55 million as of March 1, 2009. The loan agreement was also amended to revise our obligation to maintain certain financial covenants. The minimum fixed charge coverage ratio was revised to exclude capital expenditures related to construction of our new headquarters building. The requirement that ResMed Corp. and ResMed Motor Technologies Inc. maintain minimum earnings before interest, taxes, depreciation and amortization, or EBITDA, was increased to \$15 million. Finally, the requirement that we meet certain minimum liquidity was eliminated.

The entire outstanding principal amount must be repaid in full before March 1, 2011. The outstanding principal amount due under the loan will bear interest at a rate equal to LIBOR plus 0.75% to 1.00% (depending on the applicable leverage ratio). At March 31, 2009, there was \$64.1 million outstanding under this loan facility.

Liquidity and Capital Resources, Continued

Syndicated Facility

On June 8, 2006, our wholly owned Australian subsidiary, ResMed Limited, entered into a Syndicated Facility Agreement with HSBC Bank Australia Limited as original financier, facility agent and security trustee, that provides for a loan in three tranches (the "Syndicated Facility Agreement").

Tranche A is a Euro ("EUR") 50 million five-year term loan facility that refinanced all amounts outstanding under a syndicated facility agreement dated May 16, 2005, between ResMed Limited and HSBC Bank Australia Limited, to fund the obligations of our wholly owned French subsidiary ResMed SAS under its agreement to acquire Saime SAS. Tranche A bears interest at a rate equal to LIBOR for deposits denominated in EUR plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of ResMed Inc. and its subsidiaries (the "ResMed Group") for the most recently completed fiscal year for the applicable interest period. Payments of principal must be made to reduce the total outstanding principal amount of Tranche A to EUR 27.5 million on June 30, 2009, EUR 15 million on December 31, 2009, and the entire outstanding principal amount must be repaid in full on June 8, 2011. At March 31, 2009, the Tranche A facility loan had an amount outstanding of EUR 27.5 million, equivalent to approximately U.S. dollars ("USD") 36.4 million.

Tranche B is a USD 15 million term loan facility that may only be used for the purpose of financing capital expenditures and other asset acquisitions by the ResMed Group. Tranche B bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars, USD or British Pounds Sterling plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire principal amount must be repaid in full on June 8, 2011. At March 31, 2009, there was USD 9.0 million outstanding under this loan facility.

Tranche C is a USD 60 million term loan facility that may only be used for the purpose of the payment by ResMed Limited of a dividend to ResMed Holdings Limited, which will ultimately be paid to ResMed Inc. Tranche C bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars or USD plus a margin of 0.70% or 0.80%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire outstanding principal amount must be repaid in full by June 8, 2009. At March 31, 2009, there were no amounts outstanding under this loan facility.

Simultaneous with the Syndicated Facility Agreement, ResMed Limited entered into a working capital agreement with HSBC Bank Australia Limited for revolving, letter of credit and overdraft facilities up to a total commitment of 6.5 million Australian dollars, and ResMed (UK) Limited entered into a working capital agreement with HSBC Bank plc for a revolving cash advance facility for a total commitment of up to 3 million British Pounds Sterling. At March 31, 2009, there were no amounts outstanding under any of these arrangements.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

First Amended and Restated Syndicated Facility Agreement

On September 30, 2008, our wholly-owned Australian subsidiary, ResMed Limited, agreed to amend and restate the Syndicated Facility Agreement entered into on June 8, 2006. The amended and restated agreement ("First Amended and Restated Syndicated Facility Agreement") with the Hong Kong and Shanghai Banking Corporation, Sydney Branch as financier and HSBC Bank Australia Limited as facility agent and security trustee, provides for an additional Tranche D term loan facility in the amount of 50 million US dollars. The financier has the right to assign part or all of its rights and/or obligations under the First Amended and Restated Syndicated Facility Agreement to other financial institutions

The additional \$50 million loan facility will be used for general corporate purposes. The additional loan facility bears interest at a rate equal to LIBOR for deposits denominated in US dollars, plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of ResMed Inc. and subsidiaries for the most recently completed fiscal year for the applicable interest period. The entire principal amount of the additional loan facility must be repaid in full by September 30, 2009. At March 31, 2009, there was USD 50.0 million outstanding under this loan facility.

We expect to satisfy all of our short-term liquidity requirements through a combination of cash on hand, cash generated from operations and our \$10.4 million in undrawn facilities.

Common stock

On June 6, 2002, the Board of Directors authorized us to repurchase up to 8.0 million shares of outstanding common stock. During the three months and nine months ended March 31, 2009, we repurchased 0.8 and 1.5 million shares at a cost of \$26.6 million and \$52.7 million, respectively. At March 31, 2009, we have repurchased a total of 6.4 million shares at a cost of \$195.7 million. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share.

Critical Accounting Principles and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis we evaluate our estimates, including those related to allowance for doubtful accounts, inventory reserves, warranty obligations, goodwill, potentially impaired assets, intangible assets, income taxes and contingencies.

We state these accounting policies in the notes to the financial statements and at relevant sections in this discussion and analysis. The estimates are based on the information that is currently available to us and

on various other assumptions that we believe to be reasonable under the circumstances. Actual results could vary from those estimates under different assumptions or conditions.

We believe that the following critical accounting policies affect the more significant judgments and estimates used in the preparation of our financial statements:

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Principles and Estimates, Continued

(1) Allowance for Doubtful Accounts. We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments, which results in bad debt expense. We determine the adequacy of this allowance by continually evaluating individual customer receivables, considering a customer's financial condition, credit history and current economic conditions. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

(2) Inventory Adjustments. Inventories are stated at lower of cost or market and are determined by the first-in, first-out method. We review the components of inventory on a regular basis for excess, obsolete and impaired inventory based on estimated future usage and sales. The likelihood of any material inventory write-downs is dependent on changes in competitive conditions, new product introductions by us or our competitors, or rapid changes in customer demand.

(3) Valuation of Goodwill, Intangible and Other Long-Lived Assets. We use assumptions in establishing the carrying value, fair value and estimated lives of our long-lived assets and goodwill. The criteria used for these evaluations include management's estimate of an asset's continuing ability to generate positive income from operations and positive cash flow in future periods compared to the carrying value of the asset, as well as the strategic significance of any identifiable intangible asset in our business objectives. If assets are considered to be impaired, the impairment recognized is the amount by which the carrying value of the assets exceeds the fair value of the assets. Useful lives and related amortization or depreciation expense are based on our estimate of the period that the assets will generate revenues or otherwise be used by us.

Factors that would influence the likelihood of a material change in our reported results include significant changes in the asset's ability to generate positive cash flow, loss of legal ownership or title to the asset, a significant decline in the economic and competitive environment on which the asset depends, significant changes in our strategic business objectives, utilization of the asset, and a significant change in the economic and/or political conditions in certain countries.

(4) Valuation of Deferred Income Taxes. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The likelihood of a material change in our expected realization of these assets is dependent on future taxable income, the intrinsic value of stock options, our ability to deduct tax loss carry forwards against future taxable income, the effectiveness of our tax planning strategies among the various tax jurisdictions that we operate in, and any significant changes in the tax treatment received on our business combinations.

(5) Provision for Warranty. We provide for the estimated cost of product warranties at the time the related revenue is recognized. The amount of this provision is determined by using a financial model, which takes into consideration actual, historical expenses and potential risks associated with our different products. This financial model is then used to calculate the future probable expenses related to warranty and the required level of the warranty provision. Although we engage in product improvement programs and processes, our warranty obligation is affected by product failure rates and costs incurred to correct those product failures. Should actual product failure rates or estimated costs to repair those product failures differ from our estimates, revisions to our estimated warranty provision would be required.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Principles and Estimates, Continued

(6) Revenue Recognition. Revenue on product sales is recorded at the time of shipment, at which time title transfers to the customer. Revenue on product sales, which require customer acceptance, is not recorded until acceptance is received. Royalty revenue from license agreements is recorded when earned. Service revenue received in advance from service contracts is initially deferred and recognized ratably over the life of the service contract. Revenue received in advance from rental unit contracts is initially deferred and recognized ratably over the life of the rental contract. Revenue from sale of marketing and distribution rights is initially deferred and recognized ratably as revenue over the life of the contract. Freight charges billed to customers are included in revenue. All freight-related expenses are charged to cost of sales. We do not recognize revenues to the extent that we offer a right of return or other recourse with respect to the sale of our products, other than returns for product defects or other warranty claims, nor do we recognize revenues if we offer variable sale prices for subsequent events or activities. As part of our sales processes we may provide upfront discounts for large orders, one time special pricing to support new product introductions, sales rebates for centralized purchasing entities or price-breaks for regular order volumes. The costs of all such programs are recorded as an adjustment to revenue. Our products are predominantly therapy-based equipment and require no installation. As such, we have no significant installation obligations.

(7) Stock-Based Compensation. We measure the compensation of all stock-based awards at fair value on date of grant. Such value is recognized as compensation expense over the service period, net of estimated forfeitures. We estimate the fair value of employee stock options using a Black-Scholes valuation model. The fair value of an award is affected by our stock price on the date of grant as well as other assumptions including the estimated volatility of our stock price over the term of the awards and the estimated period of time that we expect employees to hold their stock options. The risk-free interest rate assumption we use is based upon U.S. Treasury yield curve appropriate for the expected life of the awards. Expected volatilities are based on a combination of historical volatilities of our stock and the implied volatilities from traded options of our stock corresponding to the expected term of the options. We use a combination of the historic and implied volatilities as we believe the addition of the implied volatility is more representative of our future stock price trends. In order to determine the estimated period of time that we expect employees to hold their stock options, we have used historical rates by employee groups. The estimation of stock awards that will ultimately vest requires judgment, and to the extent actual results differ from our estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. The aforementioned inputs entered into the option valuation model we use to fair value our stock awards are subjective estimates and changes to these estimates will cause the fair value of our stock awards and related stock-based compensation expense we record to vary.

(8) Income Tax. We have adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48 "Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109" ("FIN 48") on July 1, 2007. In accordance with FIN 48 we assess our income tax positions and record tax benefits for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting date. For those tax positions where it is more likely than not that a tax benefit will be sustained, we have recorded the largest amount of tax benefit with a greater than 50 percent likelihood of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where it is not more likely than not that a tax benefit will be sustained, no tax benefit has been recognized in the financial statements.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued FASB No. 157, "Fair Value Measurements" ("FASB 157"), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. FASB 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued FASB Staff Position 157-2, Effective Date of FASB Statement 157 ("FSP 157-2"), which delays the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those items which are recognized or disclosed at fair value in the financial statements on a recurring basis. In October 2008, the FASB issued FASB Staff Position No. FAS 157-3 "Determining the Fair Value of a Financial Asset When the Market for that Asset is Not Active" ("FAS 157-3"), which clarifies the application of SFAS 157 in a market that is not active. FAS 157-3 was effective upon issue, including prior periods for which financial statements have not been issued. We have adopted this standard on July 1, 2008 and all related staff positions. The adoption did not have a material impact on our financial statements.

In February 2007, FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"), which allows entities to account for most financial instruments at fair value rather than under other applicable generally accepted accounting principles (GAAP), such as historical cost. The accounting results in the instrument being marked to fair value every reporting period with the gain or loss from a change in fair value recorded in the income statement. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Based upon our analysis and implementation of SFAS 159 as it relates to our balance sheet accounts, we did not elect the fair value option permitted in SFAS 159 for any of our eligible financial assets or liabilities. Therefore, SFAS 159 did not have any impact on our unaudited condensed consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised), "Business Combinations" ("SFAS No. 141(R)"). Under the requirements of SFAS No. 141(R), the acquiring entity will be required to recognize all assets and liabilities acquired in a transaction at their acquisition date fair value. SFAS No. 141(R) will also change the accounting treatment for specific transactions such as the recognition of contingent liabilities, the recognition of capitalized in-process research and development, restructuring costs, the treatment of acquisition related transaction costs and changes in the income tax valuation allowances. SFAS No. 141(R) is effective for business combinations for which the acquisition date is on or after July 1, 2009, with early adoption prohibited. The adoption of this standard will not impact our current financial statements but we are assessing the potential impact that the adoption of this standard will have on our future financial statements.

In December 2007, the FASB issued SFAS No. 160, "Non-controlling Interests in Consolidated Financial Statements – An amendment of ARB No. 51" ("SFAS No. 160"). SFAS No. 160 outlines the accounting and reporting requirements for non-controlling interests in consolidated financial statements such as recognizing non-controlling interests as a component of consolidated stockholder's equity separate from the parent equity and net income attributable to non-controlling interests be identified and shown separately on the face of the consolidated income statement. SFAS No. 160 also revises the accounting for increases and decreases in a parent's controlling interest. SFAS No. 160 is effective for fiscal years and interim periods within those years, beginning after December 15, 2008, with early adoption prohibited. We do not believe the adoption of this standard will have a material impact on our financial statements.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Recently Issued Accounting Pronouncements, Continued

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities – an Amendment of FASB Statement 133" ("SFAS No. 161"). SFAS No. 161 requires disclosure of how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS No. 161 is effective for fiscal years and interim periods within those years, beginning after November 15, 2008. We do not believe the adoption of this standard will have a material impact on our financial statements.

Off-Balance Sheet Arrangements

As of March 31, 2009, we are not involved in any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated by the SEC.

Quantitative and Qualitative Disclosures about Market Risk

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Market Risk

Our reporting currency is the U.S. dollar, although the financial statements of our non-U.S. subsidiaries are maintained in their respective local currencies. We transact business in various foreign currencies, including a number of major European currencies as well as the Australian dollar. We have significant foreign currency exposure through both our Australian manufacturing activities and international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing expenditures. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures denominated in Euros and Australian dollars. Under this program, increases or decreases in our foreign-currency-denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments. We do not enter into financial instruments for trading or speculative purposes.

The table below provides information in U.S. dollar equivalents on our significant foreign-currency-denominated financial assets and liabilities at March 31, 2009 (in thousands):

	Foreign Currency Financial Assets									
	Australian Dollar (AUD)	US Dollar (USD)	Euro (EUR)	Great Britain Pound (GBP)	Canadian Dollar (CAD)	Singapore Dollar (SGD)	New Zealand Dollar (NZD)	Swedish Krona (SEK)	Swiss Franc (CHF)	Norwegian Kroner (NOK)

Receive AUD/Pay GBP						
Option Amount	\$3,223	\$2,149	-	\$5,372	\$84	\$143
Ave. contractual exchange rate	AUD 1 = GBP 0.4912	AUD 1 = GBP 0.5120	-	AUD 1 = GBP 0.4993		

Interest Rate Risk

We are exposed to risk associated with changes in interest rates affecting the return on our cash and cash equivalents, investment securities and debt. At March 31, 2009, we maintain cash and cash equivalents of \$327.1 million containing financial instruments that have original maturities of less than six months. These financial instruments principally comprised of bank term deposits and at call accounts are invested at both short term fixed interest rates and variable interest rates. At March 31, 2009, we had total long-term debt, including the current portion of those obligations, of \$159.6 million. All of this debt is subject to variable interest rates. A hypothetical 10% change in interest rates during the three months ended March 31, 2009, would not have had a material impact on pretax income. We have no interest rate hedging agreements.

Credit Market Risk

At March 31, 2009, we held a number of investment securities in AAA rated auction securities with UBS which had various maturities between July 2039 and November 2047. During November 2008, we accepted an offer that gave us a right to sell our investment securities back to UBS at full par value after June 30, 2010. However, in the event we need to access the funds invested in these auction rate securities prior to June 30, 2010 we may not be able to liquidate these securities at the par value. Therefore given the current market liquidity conditions and our intention to hold these investments until the rights under the UBS offer can be exercised on June 30, 2010 we have reclassified these securities from current to non-current assets. We also believe the current lack of liquidity of these investments is temporary and have therefore recorded the excess of the carrying value over the fair value to comprehensive income within stockholders equity. Additionally, based on our ability to access our cash and cash equivalents, expected operating cash flows, and other sources of cash, we do not anticipate the current lack of liquidity on these investments will affect our ability to operate the business in the ordinary course.

RESMED INC. AND SUBSIDIARIES

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of March 31, 2009.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

RESMED INC. AND SUBSIDIARIES

PART II — OTHER INFORMATION

Item 1 Legal Proceedings

The information required by this Item is incorporated herein by reference to Note 12, "Legal Actions and Contingencies," to the unaudited condensed consolidated financial statements under Part I, Item 1 of this report.

Item 1A Risk Factors

The discussion of our business and operations should be read together with the risk factors contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2008, which was filed with the SEC and describes the various risks and uncertainties to which we are or may become subject. At March 31, 2009, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended June 30, 2008 with the exception of the following:

Our results of operations may be materially affected by global economic conditions generally, including conditions in the financial markets. Recently, concerns over inflation, energy costs, geopolitical issues, the availability and cost of credit, the U.S. mortgage market and a declining residential real estate market in the U.S. have contributed to increased volatility and diminished expectations for the economy and the financial markets going forward. These factors, combined with volatile oil prices, declining business and consumer confidence and increased unemployment, have precipitated an economic slowdown and fears of a possible recession. It is difficult to predict how long the current economic conditions will continue and whether the economic conditions will continue to deteriorate. If the economic climate in the U.S. or outside the US continues to deteriorate or there is a shift in government spending priorities, customers or potential customers could reduce or delay their purchases, which could impact our revenue, our ability to manage inventory levels, collect customer receivables, and ultimately decrease our profitability.

RESMED INC. AND SUBSIDIARIES
CERTIFICATION OF CHIEF EXECUTIVE OFFICER
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Kieran T. Gallahue, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ResMed Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

RESMED INC. AND SUBSIDIARIES
CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

Pursuant to 18 U.S.C. § 1350, as created by Section 906 of the Sarbanes-Oxley Act of 2002, the undersigned officer of ResMed Inc., a Delaware corporation (the "Company"), hereby certifies, to his knowledge, that:

- (i) the accompanying Quarterly Report on Form 10-Q of the Company for the period ended March 31, 2009 (the "Report") fully complies with the requirements of Section 13(a) or Section 15(d), as applicable, of the Securities Exchange Act of 1934, as amended; and
- (ii) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
