

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549**

FORM 10-Q

(Mark One)
 QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 31, 2014

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-15317

ResMed Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

98-0152841

(I.R.S. Employer Identification No.)

9001 Spectrum Center Blvd.

San Diego, CA 92123

United States of America

(Address of principal executive offices)

(858) 836-5000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At January 21, 2015, there were 140,554,529 shares of Common Stock (\$0.004 par value) outstanding. This number excludes 37,944,964 shares held by the registrant as treasury shares.

(Unaudited)

(1) Summary of Significant Accounting Policies

Organization and Basis of Presentation

ResMed Inc. (referred to herein as “we”, “us”, “our” or the “Company”) is a Delaware corporation formed in March 1994 as a holding company for the ResMed Group. Through our subsidiaries, we design, manufacture and market equipment for the diagnosis and treatment of sleep-disordered breathing and other respiratory disorders, including obstructive sleep apnea. Our manufacturing operations are located in Australia, Singapore, France, Germany, Malaysia and the United States. Major distribution and sales sites are located in the United States, Germany, France, the United Kingdom, Switzerland, Australia, Japan, Norway and Sweden.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all necessary adjustments, which consisted only of normal recurring items, have been included in the accompanying financial statements to present fairly the results of the interim periods. The results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending June 30, 2015.

The condensed consolidated financial statements for the three and six months ended December 31, 2014 and 2013 are unaudited and should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K for the year ended June 30, 2014.

New Accounting Pronouncements

In May, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company beginning in the first quarter of fiscal year 2018. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

(2) Earnings Per Share

Basic earnings per share is computed by dividing the net income available to common stockholders by the weighted average number of shares of common stock outstanding. For purposes of calculating diluted earnings per share, the denominator includes both the weighted average number of shares of common stock outstanding and the number of dilutive common stock equivalents such as stock options and restricted stock units.

Stock options and restricted stock units of 199,443 and 232,176, for the three months ended December 31, 2014 and 2013, respectively, and stock options and restricted stock units of 176,725 and 216,558 for the six months ended December 31, 2014 and 2013, respectively, were not included in the computation of diluted earnings per share as the effect of exercising these options would have been anti-dilutive.

Basic and diluted earnings per share for the three and six months ended December 31, 2014 and 2013 are calculated as follows (in thousands except per share data):

	Three Months Ended December 31,		Six Months Ended December 31,	
	2014	2013	2014	2013
Numerator:				
Net Income, used in calculating diluted earnings per share	\$ 91,181	\$ 86,636	\$174,440	\$167,566
Denominator:				
Basic weighted-average common shares outstanding	140,048	142,202	140,104	142,103
Effect of dilutive securities:				
Stock options and restricted stock units	2,154	3,133	2,364	3,309
Diluted weighted average shares	142,202	145,335	142,468	145,412
Basic earnings per share	\$ 0.65	\$ 0.61	\$ 1.25	\$ 1.18
Diluted earnings per share	\$ 0.64	\$ 0.60	\$ 1.22	\$ 1.15

RESMED INC. AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

(3) Inventories

Inventories were comprised of the following at December 31, 2014 and June 30, 2014 (in thousands):

	December 31, 2014	June 30, 2014
Raw materials	\$ 68,963	\$ 53,680
Work in progress	4,438	3,358
Finished goods	144,661	108,380
Total inventories	\$ 218,062	\$ 165,418

(4) Property, Plant and Equipment

Property, plant and equipment were comprised of the following as of December 31, 2014 and June 30, 2014 (in thousands):

	December 31, 2014	June 30, 2014
Machinery and equipment	\$ 192,736	\$ 200,929
Computer equipment	137,240	133,157
Furniture and fixtures	40,091	42,631
Vehicles	5,643	4,757
Clinical, demonstration and rental equipment	89,506	101,453
Leasehold improvements	28,860	30,361
Land	56,916	62,468
Buildings	243,915	266,771
	794,907	842,527
Accumulated depreciation and amortization	(386,688)	(408,250)
Property, plant and equipment, net	\$ 408,219	\$ 434,277

(5) Cost-Method Investments

The aggregate carrying amount of our cost-method investments at December 31, 2014 and June 30, 2014, was \$25.4 million and \$14.9 million, respectively, and is included in the non-current balance of other assets on the condensed consolidated balance sheets.

We periodically evaluate the carrying value of our cost-method investments, when events and circumstances indicate that the carrying amount of an asset may not be recovered. We estimate the fair value of our cost-method investments to assess whether impairment losses shall be recorded using Level 3 inputs. These investments include our holdings in privately held service and research companies that are not exchange traded and therefore not supported with observable market prices. However, these investments are valued by reference to their net asset values that can be market supported and unobservable inputs including future cash flows. During the six months ended December 31, 2014 and 2013, we did not recognize any impairment losses related to our cost-method investments. We have determined that the fair value of our investments exceed their carrying values.

The following table shows a reconciliation of the changes in our cost-method investments during the six months ended December 31, 2014 and 2013 (in thousands):

	Six Months Ended December 31,	
	2014	2013
Balance at the beginning of the period	\$ 14,850	\$ 4,000
Investments	10,500	1,525
Balance at the end of the period	\$ 25,350	\$ 5,525

(6) Goodwill and Other Intangible Assets, net

Goodwill

Changes in the carrying amount of goodwill for the six months ended December 31, 2014, and 2013 were as follows (in thousands):

	Six Months Ended December 31,	
	2014	2013
Balance at the beginning of the period	\$ 289,312	\$ 274,829
Business acquisition	12,315	3,227
Foreign currency translation adjustments	(29,008)	11,989
Balance at the end of the period	\$ 272,619	\$ 290,045

Other Intangible Assets

Other intangible assets were comprised of the following as of December 31, 2014, and June 30, 2014 (in thousands):

	December 31, 2014	June 30, 2014
Developed/core product technology	\$ 67,579	\$ 76,015
Accumulated amortization	(50,831)	(54,073)
Developed/core product technology, net	16,748	21,942
Trade names	2,716	2,784
Accumulated amortization	(2,420)	(2,697)
Trade names, net	296	87
Non-compete agreements	1,849	2,135
Accumulated amortization	(1,667)	(1,768)
Non compete agreements, net	182	367
Customer relationships	32,598	24,593

Patents, net	17,976	19,086
Total other intangibles, net	\$ 48,347	\$ 45,198

Intangible assets consist of patents, customer relationships, trade names, non-compete agreements and developed/core product technology. We amortize intangible assets over the estimated useful life of the assets, generally between two and nine years. There are no expected residual values related to these intangible assets.

RESMED INC. AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

(7) Long-Term Debt

Long-term debt at December 31, 2014 and June 30, 2014 consists of the following (in thousands):

	December 31, 2014	June 30, 2014
Current long-term debt	\$ -	\$ 18
Non-current long-term debt	449,663	300,770
Total long-term debt	\$ 449,663	\$ 300,788

Credit Facility

On October 31, 2013, we entered into a credit agreement, as borrower, with lenders, including Union Bank, N.A., as administrative agent, joint lead arranger, swing line lender and letters of credit issuer, and HSBC Bank USA, National Association, as syndication agent and joint lead arranger. Our obligations under the credit agreement are guaranteed by ResMed Corp. and ResMed Motor Technologies Inc., two of our U.S. subsidiaries.

The credit agreement provides a \$700 million senior unsecured five-year revolving credit facility, with an uncommitted option to increase the credit facility by an additional \$300 million. The credit facility also includes a \$25 million sublimit for letters of credit. The credit facility terminates on October 31, 2018, when all unpaid principal and interest under the loans must be repaid. The outstanding principal amount due under the credit facility will bear interest at a rate equal to LIBOR plus 1.0% to 2.0% (depending on the then-applicable leverage ratio). At December 31, 2014, the interest rate that was being charged on the outstanding principal amount was 1.2%. An applicable commitment fee of 0.15% to 0.25% (depending on the then-applicable leverage ratio) applies on the unused portion of the credit facility.

When we entered into the credit agreement, we used a portion of the proceeds from the initial funding of the credit facility to repay the outstanding balance under our previous revolving credit facility with Union Bank, N.A and other lenders. On that repayment, the previous credit agreement, dated as of February 10, 2011, between us and lenders (including Union Bank, N.A., as administrative agent, swing line lender and letter of credit issuer, HSBC Bank USA, National Association, as syndication agent and Union Bank, N.A., HSBC Bank USA, National Association, Commonwealth Bank of Australia and Wells Fargo Bank), was terminated and the commitments under the previous credit agreement were also terminated.

Our obligations under the current credit agreement are unsecured but are guaranteed by two of our U.S. subsidiaries. The credit agreement contains customary covenants, including certain financial covenants and an obligation that we maintain certain financial ratios, including a maximum leverage ratio of funded debt to EBITDA (as defined in the credit agreement) and an interest coverage ratio. The entire principal amount of the credit facility and any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs, as defined in the credit agreement. Events of default under the credit agreement include failure to make payments when due, the occurrence of a default in the performance of any covenants in the credit agreement or related documents, or certain changes of control of ResMed Inc., ResMed Corp., ResMed Motor Technologies Inc., ResMed Limited, ResMed Holdings Ltd/LLC or ResMed EAP Holdings LLC.

At December 31, 2014, there was \$449.0 million outstanding under the credit agreement.

(8) Product Warranties

Changes in the liability for warranty costs, which is included in accrued expenses in our condensed consolidated balance sheets, for the six months ended December 31, 2014 and 2013 are as follows (in thousands):

	Six Months Ended December 31,	
	2014	2013
Balance at the beginning of the period	\$ 11,798	\$ 16,011
Warranty accruals for the period	3,503	4,425
Warranty costs incurred for the period	(2,857)	(4,500)
Foreign currency translation adjustments	(1,367)	(252)
Balance at the end of the period	\$ 11,077	\$ 15,684

(Unaudited)

(9) Stock-Based Employee Compensation

We measure the compensation expense of all stock-based awards at fair value on the grant date. We estimate the fair value of stock options and purchase rights granted under the employee stock purchase plan (the “ESPP”) using the Black-Scholes valuation model. The fair value of restricted stock units is equal to the market value of the underlying shares as determined at the grant date less the fair value of dividends that holders are not entitled to, during the vesting period. The fair value of performance restricted stock units which contain a market condition, are estimated using a Monte-Carlo simulation model. We recognize the fair value as compensation expense using the straight-line method over the service period for awards expected to vest.

We estimate the fair value of stock options granted under our stock option plans and purchase rights granted under the ESPP using the following assumptions:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2014	2013	2014	2013
Stock options:				
Weighted average grant date fair value	\$ 10.58	\$ 10.90	\$ 10.58	\$ 10.90
Weighted average risk-free interest rate	1.60%	1.44%	1.60%	1.44%
Expected option life in years	4.9	4.9	4.9	4.9
Dividend yield	2.15%	2.06%	2.15%	2.06%
Expected volatility	27%	30%	27%	30%
ESPP purchase rights:				
Weighted average risk-free interest rate	0.07%	0.08%	0.07%	0.08%
Expected option life in years	6 months	6 months	6 months	6 months
Dividend yield	2.17%	1.44% - 1.96%	2.00% - 2.17%	1.44% - 1.96%
Expected volatility	22%	24% - 28%	22% - 24%	24% - 28%

(10) Stockholders' Equity

Common Stock. During the three months ended December 31, 2014 and 2013 we repurchased 0.7 million and 1.5 million shares at a cost of \$33.5 million and \$74.0 million, respectively. Since the inception of our share repurchase programs and through December 31, 2014, we have repurchased a total of 37.9 million shares at a cost of \$1.4 billion. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. At December 31, 2014, 16.8 million additional shares can be repurchased under the approved share repurchase program.

Preferred Stock. In April 1997, the board of directors designated 2,000,000 shares of our \$0.01 par value preferred stock as Series A Junior Participating Preferred Stock. No shares were issued or outstanding at December 31, 2014 and June 30, 2014.

Stock Options and Restricted Stock Units. We have granted stock options and restricted stock units to personnel, including officers and directors, in accordance with ResMed Inc. 2009 Incentive Award Plan (the “2009 Plan”). These options and restricted stock units have expiration dates of seven years from the date of grant and vest over one to four years. We have granted the options with an exercise price equal to the market value as determined at the date of grant.

The maximum number of shares of our common stock authorized for issuance under the 2009 Plan is 43.7 million shares. The number of securities remaining available for future issuance under the 2009 Plan at December 31, 2014 is 14.1 million. The number of shares of our common stock available for issuance under the 2009 Plan will be reduced by (i) 2.8 shares for each one share of common stock delivered in settlement of any “full-value award,” which is any award other than a stock option, stock appreciation right or other award for which the holder pays the intrinsic value and (ii) one share for each share of common stock delivered in settlement of all other awards. The maximum number of shares, that may be subject to awards granted under the 2009 Plan to any individual during any calendar year, may not exceed 3 million shares of our common stock (except in a participant’s initial year of hiring, when up to 4.5 million shares of our common stock may be granted).

At December 31, 2014, there were \$93.3 million in unrecognized compensation costs related to unvested stock-based compensation arrangements. This is expected to be recognized over a weighted average period of 2.5 years. The aggregate intrinsic value of the stock-based compensation arrangements outstanding and exercisable at December 31, 2014 was \$249.5 million and \$106.5 million, respectively. The aggregate intrinsic value of the options exercised during the six months ended December 31, 2014 and 2013, was \$28.5 million and \$50.5 million, respectively.

RESMED INC. AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

The following table summarizes option activity during the six months ended December 31, 2014:

		Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years
Outstanding at beginning of period	4,687,220	\$ 24.45	2.6
Granted	97,209	52.02	
Exercised	(837,924)	17.81	
Forfeited	(13,823)	34.00	
Outstanding at end of period	3,932,682	\$ 26.51	2.5
Exercise price range of granted options	52.02		
Options exercisable at end of period	3,282,269	\$ 23.61	

The following table summarizes the activity of restricted stock units during the six months ended December 31, 2014:

		Weighted Average Grant- Date Fair Value	Weighted Average Remaining Contractual Term in Years
Outstanding at beginning of period	2,448,331	\$ 38.58	1.3
Granted	816,136	50.15	
Vested	(851,619)	36.06	
Forfeited	(34,936)	36.91	
Outstanding at end of period	2,377,912	\$ 43.48	1.7

Employee Stock Purchase Plan (the “ESPP”). Under the ESPP, we offer participants the right to purchase shares of our common stock at a discount during successive offering periods. Each offering period under the ESPP will be for a period of time determined by the board of directors’ compensation committee of no less than 3 months and no more than 27 months. The purchase price for our common stock under the ESPP will be the lower of 85% of the fair market value of our common stock on the date of grant or 85% of the fair market value of our common stock on the date of purchase. An individual participant cannot subscribe for more than \$25,000 in common stock during any calendar year. At December 31, 2014, the number of shares remaining available for future issuance under the ESPP is 1.6 million shares.

(11) Fair Value Measurements

In determining the fair value measurements of our financial assets and liabilities, we consider the principal and most advantageous market in which we transact and consider assumptions that market participants would use when pricing the financial asset or liability. We maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The hierarchies of inputs are as follows:

- Level 1: Input prices quoted in an active market for identical financial assets or liabilities;
- Level 2: Inputs other than prices quoted in Level 1, such as prices quoted for similar financial assets and liabilities in active markets, prices for identical assets and liabilities in markets that are not active or other inputs that are observable or can be corroborated by observable market data; and
- Level 3: Input prices quoted that are significant to the fair value of the financial assets or liabilities which are not observable nor supported by an active market.

The following table summarizes our financial assets and liabilities, as at December 31, 2014 and June 30, 2014, using the valuation input hierarchy (in thousands):

	Level 1	Level 2	Level 3	Total
Balances at December 31, 2014				
Foreign currency hedging instruments, net	\$ -	\$ 1,135	\$ -	\$ 1,135
Business acquisition contingent consideration	\$ -	\$ -	\$ (1,129)	\$ (1,129)
Balances at June 30, 2014				
Foreign currency hedging instruments, net	\$ -	\$ (2,270)	\$ -	\$ (2,270)
Business acquisition contingent consideration	\$ -	\$ -	\$ (480)	\$ (480)

We determine the fair value of our financial assets and liabilities as follows:

Foreign currency hedging instruments – These financial instruments are valued using third-party valuation models based on market observable inputs, including interest rate curves, on-market spot currency prices, volatilities and credit risk.

Contingent consideration – These liabilities include the fair value estimates of additional future payments that may be required for some of our previous business acquisitions based on the achievement of certain performance milestones. Each potential future payment is valued using the estimated probability of achieving each milestone, which is then discounted to present value.

The following is a reconciliation of changes in the fair value of contingent consideration for the six months ended December 31, 2014 and 2013 (in thousands):

	Six Months Ended December 31,	
	2014	2013
Balance at the beginning of the period	\$ (480)	\$ (7,779)
Acquisition date fair value of contingent consideration	(1,217)	-
Changes in fair value included in operating income	132	3,438
Payments	458	442
Foreign currency translation adjustments	(22)	(144)
Balance at the end of the period	\$ (1,129)	\$ (4,043)

We did not have any significant non-financial assets or liabilities measured at fair value on December 31, 2014 or June 30, 2014.

RESMED INC. AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

(12) Legal Actions and Contingencies

Litigation

In the normal course of business, we are subject to routine litigation incidental to our business. While the results of this litigation cannot be predicted with certainty, we believe that their final outcome will not, individually or in aggregate, have a material adverse effect on our consolidated financial statements taken as a whole.

Obligations Under Recourse Provisions

We use independent leasing companies to provide financing to certain customers for the purchase of our products. In some cases, we are liable in the event of a customer default, to the leasing companies, within certain limits, for unpaid installment receivables transferred to the leasing companies. The gross amount of receivables sold with recourse during the six months ended December 31, 2014 and 2013, amounted to \$12.8 million and \$2.0 million, respectively. We have recognized a receivable and a liability under these arrangements at December 31, 2014 of \$8.6 million. We have recognized a provision in relation to these receivables at December 31, 2014 and June 30, 2014, of \$0.5 million and \$0.5 million, respectively.

(13) Derivative Instruments and Hedging Activities

We transact business in various foreign currencies, including a number of major European currencies as well as the Australian and Singapore dollars. We have significant foreign currency exposure through both our Australian and Singaporean manufacturing activities, and international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing cash flows. The terms of such foreign currency hedging contracts generally do not exceed three years. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures denominated mainly in Euros, Australian and Singapore dollars. Under this program, increases or decreases in our foreign currency denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments.

We do not designate these foreign currency contracts as hedges. We have determined our hedge program to be a non-effective hedge as defined under the FASB issued authoritative guidance. All movements in the fair value of the foreign currency instruments are recorded within other income, net in our condensed consolidated statements of income. We do not enter into financial instruments for trading or speculative purposes.

We held foreign currency instruments with notional amounts totaling \$435.2 million and \$473.7 million at December 31, 2014 and June 30, 2014, respectively, to hedge foreign currency fluctuations. These contracts mature at various dates prior to December 31, 2017.

The following table summarizes the amount and location of our derivative financial instruments as of December 31, 2014 and June 30, 2014 (in thousands):

	December 31, 2014	June 30, 2014	Balance Sheet Caption
Foreign currency hedging instruments	\$ 3,423	\$ 456	Other assets - current
Foreign currency hedging instruments	1,139	489	Other assets - non current
Foreign currency hedging instruments	(3,427)	(3,215)	Accrued expenses
	\$ 1,135	\$ (2,270)	

The following table summarizes the amount and location of gains (losses) associated with our derivative financial instruments for the six months ended December 31, 2014 and December 31, 2013, respectively (in thousands):

	Gain /(Loss) Recognized		Income Statement Caption
	Six Months Ended December 31,		
	2014	2013	
Foreign currency hedging instruments	\$ (25,295)	\$ (14,459)	Other, net
Other foreign-currency-denominated transactions	27,446	10,621	Other, net
	\$ 2,151	\$ (3,838)	

We are exposed to credit-related losses in the event of non-performance by counter parties to financial instruments. We minimize counterparty credit risk by entering into derivative transactions with major financial institutions and we do not expect material losses as a result of default by our counterparties.

RESMED INC. AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

(14) Business Combinations

During the six months ended December 31, 2014 we acquired four distributors of equipment and services for the treatment of sleep-disordered breathing and respiratory disorders, based in Australia and New Zealand, including ResSleep International Pty Ltd, which was a related party. These acquisitions have been accounted for as business combinations using purchase accounting and are included in our consolidated financial statements from their respective acquisition dates. The acquisitions are not considered a material business combination and accordingly pro forma information is not provided. The acquisitions were funded through cash on-hand and we have not incurred any material acquisition related costs.

We have completed the preliminary purchase price allocation for the above acquisitions during the period. The cost of the acquisitions has been allocated to the assets acquired and liabilities assumed based on estimates of their fair values at the date of acquisition. As part of the preliminary purchase price allocation, we recognized an intangible asset relating to customer relationships of \$12.0 million, with an estimated useful life of 5 years, and goodwill of \$12.3 million. The goodwill recognized as part of these acquisitions, which is not deductible for tax purposes, mainly represents the synergies that are unique to our combined businesses and the potential for new products and services to be developed in the future.

Special Note Regarding Forward-Looking Statements

This report contains certain forward-looking statements and information that are based on the beliefs of our management as well as estimates and assumptions made by, and information currently available to, our management. All statements other than statements regarding historical facts are forward-looking statements. The words “believe,” “expect,” “anticipate,” “will continue,” “will,” “estimate,” “plan,” “future” and other similar expressions, and negative statements of such expressions, generally identify forward-looking statements, including, in particular, statements regarding the development and approval of new products and product applications, market expansion, pending litigation and the development of new markets for our products, such as cardiovascular and stroke markets. These forward-looking statements are made in accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on these forward-looking statements. Forward-looking statements reflect the views of our management at the time the statements are made and are subject to a number of risks, uncertainties, estimates and assumptions, including, without limitation, and in addition to those identified in the text surrounding such statements, those identified in our annual report on Form 10-K for the fiscal year ended June 30, 2014 and elsewhere in this report.

In addition, important factors to consider in evaluating such forward-looking statements include changes or developments in healthcare reform, social, economic, market, legal or regulatory circumstances, changes in our business or growth strategy or an inability to execute our strategy due to changes in our industry or the economy generally, the emergence of new or growing competitors, the actions or omissions of third parties, including suppliers, customers, competitors and governmental authorities and various other factors. If any one or more of these risks or uncertainties materialize, or underlying estimates or assumptions prove incorrect, actual results may vary significantly from those expressed in our forward-looking statements, and there can be no assurance that the forward-looking statements contained in this report will in fact occur.

Before deciding to purchase, hold or sell our common stock, you should carefully consider the risks described in our annual report on Form 10-K, in addition to the other cautionary statements and risks described elsewhere in this report and in our other filings with the SEC, including our subsequent reports on Forms 10-Q and 8-K. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. If any of these known or unknown risks or uncertainties actually occurs with material adverse effects on us, our business, financial condition and results of operations could be seriously harmed. In that event, the market price for our common stock will likely decline and you may lose all or part of your investment.

RESMED INC. AND SUBSIDIARIES

Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following is an overview of our results of operations for the three and six months ended December 31, 2014. Management’s discussion and analysis of financial condition and results of operations is intended to help the reader understand the results of operations and financial condition of ResMed Inc. Management’s discussion and analysis is provided as a supplement to, and should be read in conjunction with, the selected financial data and condensed consolidated financial statements and notes, included in this report.

We are a leading developer, manufacturer and distributor of medical equipment for treating, diagnosing, and managing sleep-disordered breathing (“SDB”) and other respiratory disorders. During the three and six months ended December 31, 2014, we continued our efforts to build awareness of the consequences of untreated SDB, and to grow our business in this market. In our efforts, we have attempted to raise awareness through market and clinical initiatives highlighting the relationship between SDB/obstructive sleep apnea and co-morbidities, such as cardiac disease, diabetes, hypertension and obesity, as well as the dangers of sleep apnea in regard to occupational health and safety, especially in the transport industry.

We are committed to ongoing investment in research and development and product enhancements. During the three and six months ended December 31, 2014, we invested \$29.3 million and \$59.3 million, respectively, on research and development activities. Since the development of continuous positive airway pressure (“CPAP”) therapy, we have developed a number of innovative products for SDB and other respiratory disorders including airflow generators, diagnostic products, mask systems, headgear and other accessories. Our new product release schedule remains active across both our mask and flow generator categories. We are taking steps to increase awareness of the health dangers of SDB by sponsoring educational programs targeted at the primary care physician community. We believe these efforts should further increase awareness of both doctors and patients about the relationship between SDB, obstructive sleep apnea and co-morbidities such as cardiac disease, diabetes, hypertension and obesity. We also believe these efforts should help inform the community of the dangers of sleep apnea in occupational health and safety, especially in the transport industry.

During the three months ended December 31, 2014, we continued our roll out of the ResMed Air Solutions Platform with the launch of our AirCurve™ 10 series of bilevel products. We also continued the global roll-out of our new life support ventilation system, the Astral platform.

During the three months ended December 31, 2014, our net revenue increased by 10% when compared to the three months ended December 31, 2013. Gross margin was 62.2% for the three months ended December 31, 2014 compared to 64.7% for the three months ended December 31, 2013. Diluted earnings per share for the three months ended December 31, 2014 increased to \$0.64 per share, up from \$0.60 per share in the three months ended December 31, 2013.

At December 31, 2014, our cash and cash equivalents totaled \$880.7 million, our total assets were \$2.3 billion and our stockholders’ equity was \$1.6 billion.

In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a “constant currency basis”, which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Net Revenue

Net revenue increased for the three months ended December 31, 2014 to \$423.0 million compared to \$384.3 million for the three months ended December 31, 2013, an increase of \$38.6 million or 10% (a 14% increase on a constant currency basis). The increase in net revenue is primarily attributable to an increase in unit sales of our flow generators, masks and accessories, partially offset by a decline in average selling prices. Movements in international currencies against the U.S. dollar unfavorably impacted revenues by approximately \$13.8 million for the three months ended December 31, 2014.

Net revenue in North and Latin America for the three months ended December 31, 2014 was \$231.0 million, compared to \$206.6 million for the three months ended December 31, 2013, an increase of \$24.4 million, or 12%. The increase in net revenue is primarily attributable to an increase in unit sales of our flow generators, masks and accessories, offset by a decline in average selling prices. Net revenue in markets outside North and Latin America, for the three months ended December 31, 2014, increased to \$192.0 million compared to \$177.7 million for the three months ended December 31, 2013, an increase of 8% (a 16% increase in constant currency terms).

Net revenue from the sales of flow generators, including humidifiers, for the three months ended December 31, 2014 totaled \$240.0 million, an increase of 16% compared to the three months ended December 31, 2013 of \$207.0 million, including an increase of 25% in North and Latin America and an increase of 9% elsewhere. Net revenue from the sales of masks and other accessories for the three months ended December 31, 2014 totaled \$183.0 million, compared to the three months ended December 31, 2013 of \$177.3 million, reflecting an increase of 2% in North and Latin America and an increase of 6% elsewhere.

The following table summarizes the percentage movements in our net revenue for the three months ended December 31, 2014 compared to the three months ended December 31, 2013:

	North and Latin America	International	Total	International (Constant Currency) *	Total (Constant Currency)*
Flow generators	25%	9%	16%	17%	20%
Masks and other accessories	2%	6%	3%	14%	6%
Total	12%	8%	10%	16%	14%

* Constant currency numbers exclude the impact of movements in international currencies.

Net revenue for the six months ended December 31, 2014, was \$803.4 million, compared to \$742.0 million for the six months ended December 31, 2013, an increase of 8%. For the six months ended December 31, 2014, revenue from sales of flow generators increased by 14% compared to the six months ended December 31, 2013, comprised of an increase of 16% in North and Latin America and a 12% increase elsewhere. For the six months ended December 31, 2014, revenue from sales of mask systems and other accessories increased by 2% compared to the six months ended December 31, 2013, comprised of a 0% increase in North and Latin America and a 4% increase elsewhere. Movement in international currencies against the U.S. dollar unfavorably impacted net revenue by approximately \$13.4 million during the six months ended December 31, 2014. Excluding the impact of unfavorable currency movements, total revenue for the six months ended December 31, 2014 increased by 10% compared to the six months ended December 31, 2013.

The following table summarizes the percentage movements in our net revenue for the six months ended December 31, 2014 compared to the six months ended December 31, 2013:

	North and Latin America	International	Total	International (Constant Currency) *	Total (Constant Currency)*
Flow generators	16%	12%	14%	16%	16%
Masks and other accessories	0%	4%	2%	8%	3%
Total	7%	9%	8%	13%	10%

* Constant currency numbers exclude the impact of movements in international currencies.

Gross Profit

Gross profit increased for the three months ended December 31, 2014 to \$263.2 million from \$248.8 million for the three months ended December 31, 2013, an increase of \$14.5 million or 6%. Gross profit as a percentage of net revenue for the three months ended December 31, 2014 decreased to 62.2% from 64.7% for the three months ended December 31, 2013.

The decline in gross margins was primarily due to declines in our average selling prices, and unfavorable product mix as sales of our lower margin products represented a higher proportion of our sales, partially offset by manufacturing and supply chain improvements.

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Selling, General and Administrative Expenses**

Selling, general and administrative expenses increased for the three months ended December 31, 2014 to \$122.5 million from \$111.7 million for the three months ended December 31, 2013, an increase of \$10.8 million or 10%. The selling, general and administrative expenses were favorably impacted by the movement of international currencies against the U.S. dollar, which decreased our expenses by approximately \$5.7 million, as reported in U.S. dollars. Excluding the impact of foreign currency movements, selling, general and administrative expenses for the three months ended December 31, 2014 increased by 15% compared to the three months ended December 31, 2013. Selling, general and administrative expenses, as a percentage of net revenue, were 29.0% for the three months ended December 31, 2014, compared to 29.1% for the three months ended December 31, 2013.

Selling, general and administrative expenses increased for the six months ended December 31, 2014 to \$233.0 million from \$213.1 million for the six months ended December 31, 2013, an increase of \$20.0 million or 9%. The selling, general and administrative expenses were favorably impacted by the movement of international currencies against the U.S. dollar, which decreased our expenses by approximately \$5.5 million, as reported in U.S. dollars. Excluding the impact of foreign currency movements, selling, general and administrative expenses for the six months ended December 31, 2014 increased by 12% compared to the six months ended December 31, 2013. Selling, general and administrative expenses, as a percentage of net revenue, were 29.0% for the six months ended December 31, 2014, compared to 28.7% for the six months ended December 31, 2013.

The increase in selling, general and administrative expenses was primarily due to additional personnel to support our commercial activities, higher marketing expenditure associated with our recent product releases, an increase in our variable employee compensation costs, the impact of recent acquisitions and the release of contingent consideration in the prior year.

Research and Development Expenses

Research and development expenses decreased for the three months ended December 31, 2014 to \$29.3 million from \$29.5 million for the three months ended December 31, 2013, a decrease of \$0.2 million, or 1%. The research and development expenses were favorably impacted by the movement of international currencies against the U.S. dollar, which decreased our expenses by approximately \$2.4 million for the three months ended December 31, 2014, as reported in U.S. dollars. Excluding the impact of foreign currency movements, our research and development expenses increased by 7% compared to the three months ended December 31, 2013. Research and development expenses, as a percentage of net revenue, were 6.9% for the three months ended December 31, 2014, compared to 7.7% for the three months ended December 31, 2013.

Research and development expenses increased for the six months ended December 31, 2014 to \$59.3 million from \$56.9 million for the six months ended December 31, 2013, an increase of \$2.4 million or 4%. The research and development expenses were favorably impacted by the movement of international currencies against the U.S. dollar, which decreased our expenses by approximately \$2.2 million for the six months ended December 31, 2014, as reported in U.S. dollars. Excluding the impact of foreign currency movements, our research and development expenses increased by 8% compared to the six months ended December 31, 2013. Research and development expenses, as a percentage of net revenue, were 7.4% for the six months ended December 31, 2014, compared to 7.7% for the six months ended December 31, 2013.

The increase in research and development expenses was primarily due to an increase in expenses associated with healthcare informatics product development activities and clinical trials in the area of heart failure.

Amortization of Acquired Intangible Assets

Amortization of acquired intangible assets for the three and six months ended December 31, 2014 totaled \$2.3 million and \$4.4 million, respectively, compared to \$2.5 million and \$4.9 million for the three and six months ended December 31, 2013.

Total Other Income, Net

Total other income, net for the three and six months ended December 31, 2014 was \$6.4 million and \$13.6 million, respectively, compared to \$4.4 million and \$9.6 million, for the three and six months ended December 31, 2013. The increase in total other income, net, during the three and six months ended December 31, 2014, was due primarily to gains on foreign currency transactions and the gain on sale of a distribution business, partially offset by lower interest income resulting from lower interest rates on cash balances held and the depreciation of the Australian dollar against the U.S. dollar.

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Income Taxes**

Our effective income tax rate for the three months ended December 31, 2014 was approximately 21.1% as compared to approximately 20.9% for the three months ended December 31, 2013. Our effective income tax rate for the six months ended December 31, 2014 was approximately 19.8% as compared to approximately 20.8% for the six months ended December 31, 2013. During the six months ended December 31, 2014, there was a final resolution of a German tax audit relating to the 1997 and 1998 fiscal years. As a result, we recorded a net tax benefit of \$3.2 million. Excluding the impact of this one-time tax benefit, our effective tax rate for the six months ended December 31, 2014 would have been 21.3%. Our effective income tax rate is affected by the geographic mix of our taxable income, including the lower taxes associated with our Singapore and Malaysia manufacturing operations. Our Singapore and Malaysia operations operate under certain tax holidays and tax incentive programs that will expire in whole or in part at various dates through June 30, 2020. As of December 31, 2014, we have not provided for U.S. income taxes for the undistributed earnings of our foreign subsidiaries. We intend these earnings to be permanently reinvested outside the United States.

Net Income and Earnings per Share

As a result of the factors above, our net income for the three months ended December 31, 2014 was \$91.2 million compared to net income of \$86.6 million for the three months ended December 31, 2013, an increase of 5% over the three months ended December 31, 2013. Our net income for the six months ended December 31, 2014 was \$174.4 million compared to net income of \$167.6 million for the six months ended December 31, 2013, an increase of 4% over the six months ended December 31, 2013.

As a result of the increase in our net income and lower share count due to our stock repurchases, our diluted earnings per share for the three and six months ended December 31, 2014 were \$0.64 and \$1.22 per diluted share, respectively, compared to \$0.60 and \$1.15 for the three and six months ended December 31, 2013, an increase of 7% and 6%, respectively.

Liquidity and Capital Resources

As of December 31, 2014 and June 30, 2014, we had cash and cash equivalents of \$880.7 million and \$905.7 million, respectively. Working capital was \$1.3 billion and \$1.3 billion at December 31, 2014 and June 30, 2014, respectively.

As of December 31, 2014 and June 30, 2014, our cash and cash equivalent balances held within the United States amounted to \$50.6 million and \$29.0 million, respectively. Our remaining cash and cash equivalent balances at December 31, 2014 and June 30, 2014, of \$830.1 million and \$876.7 million, respectively, were held by our non-U.S. subsidiaries and would be subject to tax if repatriated. If these funds were needed for our operations in the United States, we would be required to accrue and pay United States taxes to repatriate these funds. However, we intend to permanently reinvest these funds outside of the United States and our current plans do not demonstrate a need to repatriate them to fund our United States operations. Our cash and cash equivalent balances are held at highly rated financial institutions.

Inventories at December 31, 2014 were \$218.1 million, an increase of \$40.0 million or 22% from the December 31, 2013 balance of \$178.1 million. The increase in inventories was mainly associated with our new product introductions.

Accounts receivable at December 31, 2014 were \$340.4 million, an increase of \$38.8 million or 13% over the December 31, 2013 accounts receivable balance of \$301.6 million. Accounts receivable days outstanding of 73 days at December 31, 2014 was 3 days higher than the 70 days at December 31, 2013. The increase in our accounts receivable balance and days sales is reflecting the impact of longer payment terms given to our customers in our domestic market. Our allowance for doubtful accounts as a percentage of total accounts receivable at December 31, 2014 was 3.5%, compared to 3.0% at June 30, 2014.

During the six months ended December 31, 2014, we generated cash of \$192.5 million from operations compared to \$174.6 million for the six months ended December 31, 2013. Movements in foreign currency exchange rates during the six months ended December 31, 2014 had the effect of decreasing our cash and cash equivalents by \$123.8 million, as reported in U.S. dollars. During the six months ended December 31, 2014 and 2013, we repurchased 1.5 million and 2.0 million shares at a cost of \$76.4 million and \$95.1 million, respectively. During the six months ended December 31, 2014 and 2013, we also paid dividends totaling \$78.5 million and \$71.1 million, respectively.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Capital expenditures for the six months ended December 31, 2014 and 2013 amounted to \$39.7 million and \$36.4 million, respectively. The capital expenditures for the six months ended December 31, 2014 primarily reflected investment in production tooling, equipment and machinery, computer hardware and software, and rental and loan equipment. At December 31, 2014, our balance sheet reflects net property, plant and equipment of \$408.2 million compared to \$434.3 million at June 30, 2014. At December 31, 2014, no capital lease obligations exist. Details of contractual obligations at December 31, 2014 are as follows:

In \$000's	Total	Payments Due by December 31					
		2015	2016	2017	2018	2019	Thereafter
Long Term Debt	\$449,663	\$ -	\$ -	\$ -	\$449,000	\$ -	\$ 663
Interest on Long Term Debt	17,281	5,572	5,572	5,572	493	32	40
Operating Leases	61,931	17,898	13,372	8,253	5,558	3,356	13,494
Purchase Obligations	119,289	119,124	165	-	-	-	-
Total	\$648,164	\$142,594	\$19,109	\$13,825	\$455,051	\$3,388	\$14,197

Details of other commercial commitments as at December 31, 2014 are as follows:

In \$000's	Total	Amount of Commitment Expiration Per Period					
		2015	2016	2017	2018	2019	Thereafter
Guarantees*	\$ 12,402	\$ 1,820	\$ 1,613	\$ -	\$ 2	\$ -	\$ 8,967
Total	\$ 12,402	\$ 1,820	\$ 1,613	\$ -	\$ 2	\$ -	\$ 8,967

* The above guarantees mainly relate to requirements under contractual obligations with insurance companies transacting with our German subsidiaries and guarantees provided under our facility leasing obligations.

Credit Facility

On October 31, 2013, we entered into a credit agreement, as borrower, with lenders, including Union Bank, N.A., as administrative agent, joint lead arranger, swing line lender and letters of credit issuer, and HSBC Bank USA, National Association, as syndication agent and joint lead arranger. Our obligations under the credit agreement are guaranteed by ResMed Corp. and ResMed Motor Technologies Inc., two of our U.S. subsidiaries.

The credit agreement provides a \$700 million senior unsecured five-year revolving credit facility, with an uncommitted option to increase the credit facility by an additional \$300 million. The credit facility also includes a \$25 million sublimit for letters of credit. The credit facility terminates on October 31, 2018, when all unpaid principal and interest under the loans must be repaid. The outstanding principal amount due under the credit facility will bear interest at a rate equal to LIBOR plus 1.0% to 2.0% (depending on the then-applicable leverage ratio). At December 31, 2014, the interest rate that was being charged on the outstanding principal amount was 1.2%. An applicable commitment fee of 0.15% to 0.25% (depending on the then-applicable leverage ratio) applies on the unused portion of the credit facility.

When we entered into the credit agreement, we used a portion of the proceeds from the initial funding of the credit facility to repay the outstanding balance under our previous revolving credit facility with Union Bank, N.A. and other lenders. On that repayment, the previous credit agreement, dated as of February 10, 2011, between us and lenders (including Union Bank, N.A., as administrative agent, swing line lender and L/C Issuer, HSBC Bank USA, National Association, as syndication agent and Union Bank, N.A., HSBC Bank USA, National Association, Commonwealth Bank of Australia and Wells Fargo Bank), was terminated and the commitments under that previous credit agreement were also terminated.

Our obligations under the current credit agreement are unsecured but are guaranteed by two of our U.S. subsidiaries. The credit agreement contains customary covenants, including certain financial covenants and an obligation that we maintain certain financial ratios, including a maximum leverage ratio of funded debt to EBITDA (as defined in the credit agreement) and an interest coverage ratio. The entire principal amount of the credit facility and any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs, as defined in the credit agreement. Events of default under the credit agreement include failure to make payments when due, the occurrence of a default in the performance of any covenants in the credit agreement or related documents, or certain changes of control of ResMed Inc., ResMed Corp., ResMed Motor Technologies Inc., ResMed Limited, ResMed Holdings Ltd/LLC or ResMed EAP Holdings LLC.

At December 31, 2014, we were in compliance with our debt covenants and there was \$449.0 million outstanding under the credit agreement.

We expect to satisfy all of our liquidity requirements through a combination of cash on hand, cash generated from operations and debt facilities.

Common Stock

During the six months ended December 31, 2014, we repurchased 1.5 million shares at a cost of \$76.4 million. At December 31, 2014, we have repurchased a total of 37.9 million shares at a cost of \$1.4 billion. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. At December 31, 2014, 16.8 million additional shares can be repurchased under the current share repurchase program.

RESMED INC. AND SUBSIDIARIES

Management’s Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Principles and Estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis we evaluate our estimates, including those related to allowance for doubtful accounts, inventory reserves, warranty obligations, goodwill, potentially impaired assets, intangible assets, income taxes and contingencies.

We state these accounting policies in the notes to the financial statements and at relevant sections in this discussion and analysis. The estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could vary from those estimates under different assumptions or conditions.

For a full discussion of our critical accounting policies, see our Annual Report on Form 10-K for the year ended June 30, 2014.

Recently Issued Accounting Pronouncements

See note 1 to the condensed consolidated financial statements for a description of recently issued accounting pronouncements, including the expected dates of adoption and estimated effects on our results of operations, financial positions and cash flows.

Off-Balance Sheet Arrangements

As of December 31, 2014, we are not involved in any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated by the SEC.

RESMED INC. AND SUBSIDIARIES

Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Market Risk

Our reporting currency is the U.S. dollar, although the financial statements of our non-U.S. subsidiaries are maintained in their respective local currencies. We transact business in various foreign currencies, including a number of major European currencies as well as the Australian and Singapore dollar. We have significant foreign currency exposure through our Australian and Singapore manufacturing activities and our international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing cash flows. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures predominantly denominated in euros, Australian dollars and Singapore dollars. Under this program, increases or decreases in our foreign-currency-denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments. We do not enter into financial instruments for trading or speculative purposes. The foreign currency derivatives portfolio is recorded in the condensed consolidated balance sheets at fair value and included in other assets or other liabilities. All movements in the fair value of the foreign currency derivatives are recorded within other income, net, on our condensed consolidated statements of income.

The table below provides information (in U.S. dollars) on our significant foreign-currency-denominated balances by legal entity functional currency as of December 31, 2014 (in thousands):

	Australian Dollar (AUD)	U.S. Dollar (USD)	Euro (EUR)	Singapore Dollar (SGD)	Canadian Dollar (CAD)	British Pound (GBP)	Malaysian Ringgit (MYR)

Quantitative and Qualitative Disclosures About Market Risk

The table below provides information about our foreign currency derivative financial instruments and presents the information in U.S. dollar equivalents. The table summarizes information on instruments and transactions that are sensitive to foreign currency exchange rates, including foreign currency call options, collars and forward contracts held at December 31, 2014. The table presents the notional amounts and weighted average exchange rates by contractual maturity dates for our foreign currency derivative financial instruments, including the forward contracts used to hedge our foreign currency denominated assets and liabilities. These notional amounts generally are used to calculate payments to be exchanged under the contracts (in thousands, except exchange rates).

Foreign Exchange Contracts	Year 1	Year 2	Year 3	Total	Fair Value Assets / (Liabilities)	
					December 31, 2014	June 30, 2014
Receive AUD/Pay USD

Ave. contractual exchange rate	EUR 1 = GBP 0.7966			EUR 1 = GBP 0.7966		

Interest Rate Risk

We are exposed to risk associated with changes in interest rates affecting the return on our cash and cash equivalents and debt. At December 31, 2014, we held cash and cash equivalents of \$880.7 million, principally comprised of bank term deposits and at-call accounts, and they are invested at short-term fixed and variable interest rates. At December 31, 2014, we had total long-term debt, including the current portion of those obligations of \$449.7 million, of which \$449.0 million is subject to variable interest rates. A hypothetical 10% change in interest rates during the three months ended December 31, 2014, would not have had a material impact on pretax income. We have no interest rate hedging agreements.

RESMED INC. AND SUBSIDIARIES

Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of December 31, 2014.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

RESMED INC. AND SUBSIDIARIES

Item 1 Legal Proceedings

We have initiated several legal proceedings to enforce our intellectual property rights. Litigation is inherently uncertain. Accordingly, we cannot predict the outcome of these matters. But we do not expect the outcome of these matters to have a material adverse effect on our consolidated financial statements when taken as a whole.

In 2013, we filed actions in the U.S. and Germany against Chinese manufacturer BMC Medical Co., Ltd to stop the infringement of several ResMed patents. The U.S. International Trade Commission initiated an investigation, and in December 2014, ruled that certain of BMC's masks infringed ResMed's patents and should be excluded from importation or sale in the US. BMC notified the commission that it has discontinued US sales of the mask products affected by the Commission's order. The International Trade Commission also ruled that the patent claim asserted against BMC's humidifier patent was anticipated by prior art, invalidated that claim, and declined to exclude BMC's humidifier products from importation or sale. The ruling is subject to appeal. In 2013, we obtained a preliminary injunction prohibiting BMC from marketing and selling certain flow generators and mask headgear accused of patent infringement in Germany. The preliminary injunction against BMC's mask headgear remains in effect, but in November 2014 the court dissolved the preliminary injunction against the sale of BMC's flow generators. We have appealed that ruling. Proceedings in Germany continue.

Item 1A Risk Factors

The discussion of our business and operations should be read together with the risk factors contained in our annual report on Form 10-K for the fiscal year ended June 30, 2014, which was filed with the SEC and describes the various risks and uncertainties to which we are or may become subject. At December 31, 2014, there have been no material changes to the risk factors set forth in our annual report on Form 10-K for the year ended June 30, 2014.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of equity securities. The following table summarizes purchases by us of our common stock during the three months ended December 31, 2014:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs ⁽¹⁾	Maximum Number of Shares that May Yet Be Purchased Under the Program ⁽¹⁾
October 1 - 31, 2014	416,982	48.16	37,694,964	17,021,049
November 1 - 30, 2014	75,000	53.40	37,769,964	16,946,049
December 1 - 31, 2014	175,000	53.93	37,944,964	16,771,049
Total	666,982	51.31	37,944,964	16,771,049

- (1) On February 21, 2014, our board of directors approved our current share repurchase program, authorizing us to acquire up to an aggregate of 20 million shares of our common stock. The program allows us to repurchase shares of our common stock from time to time for cash in the open market, or in negotiated or block transactions, as market and business conditions warrant and subject to applicable legal requirements. There is no expiration date for this program, and the program may be accelerated, suspended, delayed or discontinued at any time at the discretion of our board of directors. All share repurchases after February 21, 2014 have been executed under this program. Since the inception of the share buyback programs, we have repurchased 37.9 million shares at a total cost of \$1.4 billion.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Michael J. Farrell, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ResMed Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF CHIEF FINANCIAL OFFICER
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Brett A. Sandercock, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ResMed Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
